

Dr Marcos B.Pesci

US DENTAL DEPOT Inc

Commitment to satisfaction

US Dental Depot was founded in 2005 and transformed into US Dental Depot Inc in 2007. Headquarters are located in Fort Lauderdale, Florida USA.

At US Dental Depot Inc, we are committed to offering professional service and providing optional brands of high quality products at competitive prices. We are dealers of over 65 leading dental manufacturers worldwide.

Dr. Marcos B. Pesci with irrepressible entrepreneurial spirit and over 28 years of dental clinic and laboratory experience opened US Dental Depot Inc. He grew this small business into a thriving enterprise based on the belief that affordable, high-quality merchandise and excellent customer service were the building blocks of a successful business.

With years of experience in the dental profession, dental laboratory and dental industry, it is our intention to build strong relationships with our customers, creating complete confidence in both our knowledge and 24 hour support network.

Being a valued customer of US Dental Depot Inc has been an unparalleled experience. Our main priority has always been to treat our customers with the respect and personalized attention that they deserve. For our clients, we take care of any special shipping requirements or consolidating orders from different providers in one shipment. Our inventory, efficient purchasing department and strength in bulk purchasing allow us to provide products with the best prices and in a reliable time frame.

Everything we do is focused on service to our customers. We are reaching our goal of being a trusted advisor and consultant, offering our customers the tools and expertise to run their business in the most efficient and profitable ways possible.

Our website e-store allows US Dental Depot customers "real time" direct ordering capabilities, order review, and confirmation.

In addition, the US Dental Depot Inc website offers an online catalog with product images, valuable information on instrument care, instruction manuals, and much more.

Today we remain committed to serving our customers, supplier partners, investors, society, and US Dental Depot Inc Team and firmly believe that our best years are yet to come.

Dr Marcos PEsci

OUR POLICIES

RETURN POLICY

For all ECCO products line and Foreign lines represented/imported with exclusivity by US DENTAL DEPOT :

If you are not happy with your purchase, you can always return it with in 7 working days of the receipt of the merchandise for a store credit. (Shipping costs not included).

Product must be returned complete, unused and in its original packaging/condition, and must contain product manual, all accessories, and documentation for refund, replacement, or credit.

15% restocking or re-packaging fee will be charged in all cases (unless not opened). Additional charges may be assessed for products returned with damages and/or any missing items, such as manuals and accessories.

Returned Goods other than ECCO :

All other returned goods than the ones mentioned above, require prior authorization by the manufacturer. Returns must be authorized by the manufacturer within 7 days of date received by the customer. Please call us for the Manufacturer's policy, for an RMA (Return Material Authorization), and other specifications on returns. The RMA will include instruction on returning your product.

Upon manufacturer's acceptance of the merchandise in new condition in conformity with this policy, the purchase price will be credited to the credit card used for the original purchase minus shipping costs and less a 15%-%30 re-stocking fee depending on manufacturer's policy. Products must be received within 10 days of RMA issuance. US DENTAL DEPOT charges a 7.5% administration fee for returns, unless an equivalent purchase is made from the same manufacturer or vendor.

DO NOT RETURN ITEMS TO US DENTAL DEPOT Inc. ITEMS SENT TO US DENTAL DEPOT Inc WITHOUT A RMA WILL BE REJECTED AND WILL BE RETURNED TO THE CUSTOMER AT CUSTOMER'S EXPENSE.

ALL RETURNS MUST BE SENT DIRECTLY TO THE MANUFACTURER UNLESS FORMAL RMA IS ISSUED BY US DENTAL DEPOT Inc. .

A full refund will be provided within 14-30 days for all orders canceled prior to shipment of products.

Claims and Defective Products:

All claims for merchandise received that are not in accordance with the original purchase order must be made within 7 working days of the receipt of the merchandise. All merchandise is quality inspected and packaged in perfect condition. The shipping agent assumes full responsibility for the safe delivery of all merchandise after it leaves the EXWORK shipping point. All claims must be documented and filed immediately with the freight carrier. Concealed damage must be reported to the freight carrier immediately upon discovery with a request for inspection.

Defective products can only be returned in exchange for the exact same product, or at the discretion of Us Dental Depot Inc, the purchase price will be credited to the credit card used for the original purchase (or, if possible, through PayPal). Defective products may only be returned within 14 days of the date your product left the warehouse (regardless of when you actually took delivery of the product). The manufacturer will repair or replace any defective part at no charge unless otherwise stated. Us Dental Depot Inc is not responsible for labor charges or shipping charges to and from the manufacturer. Us Dental Depot Inc does not cover damage resulting from defective equipment, improper installation, misuse, or accidents incurred in shipping and handling. All claims against the shipping carrier must be initiated at the time the damaged items are received by the customer, as indicated on the invoice. The claim is the customer's responsibility. NOTE: Us Dental Depot Inc reserves the right to modify this policy without prior notification.

Special Orders and Exceptions:

The following special, customized, or government-regulated items are not returnable:

Opened handpieces, small equipment, and custom-ordered equipment

- Opened consumables
- Special order items
- Personalized and/or imprinted items are not returnable
- Controlled drugs
- Hazardous items: not returnable.
- Expired products
- Certain non-resalable items

WARRANTIES

- All products are warranted by the manufacturers even though in most case warranties can be processed through our offices.
- Electric equipments are identified with serial numbers for follow ups.
- Warranties on Ecco line products and the lines imported/ represented with exclusivity by **Us Dental Depot Inc** as primary importer are provided by **Us Dental Depot Inc**.
- Shipping is always insured for 100% of the goods value with the shipping agent who assumes 100% of the responsibility for the safe delivery of all merchandise
- Warranties do not cover missuse, careless handling or repairs by non-authorized service personnel.

SELF CURE (Diamond-D)

Diamond D Denture Acrylic

-To fabricate natural looking dentures it requires artistry, and technical expertise, as well as materials to support those abilities.

- Diamond D was specially formulated to provide exceptional working characteristics, ultra impact resistance, and flexural strength.

- The demand for better aesthetics and function in removable prosthetics is greater than ever.

- Diamond D can provide your laboratory the highest standards in denture acrylic to meet the challenge.

HERE IS WHY DIAMOND D ULTRA IMPACTIS A CUT ABOVE HI IMPACT ACRYLICS

- Superior tooth adhesion
- Exceptional flexural strength
- Advanced spectrophotometer shade matching technology
- Shade and handling consistency
- Exceeds expectations in patient comfort and natural aesthetics
- Cadmium and Phthalate Free
- Matching repair and relin resin available

AVAILABLE IN FOUR NATURAL LOOKING AESTHETIC SHADES

- Original
- Light
- Light Reddish Pink
- Chroma-Essence
- Dark Veined

Nickel Chrome Ni-Cr Be Free (Bego)

- Non-precious alloy for metal-ceramic work or composite veneering
 - Beryllium-free
 - Low thermal conductivity.
 - High modulus of elasticity.
 - Great strength with any practical span length.
 - The low hardness of 180 VH10 ensures easy preparation.
 - Long-term cooling not required: low coefficient of expansion.
- CTE 13,8 14,5
- Reliable metal-ceramic bond.

Alloys

Nickel Chrome Berilium

Nickel Chrome Ni-Cr Be (Cerakast)

Alloy Name CERAKAST 1 NON-PRECIOUS ALLOYS

Color: WHITE Type: PFM Application

CERAKAST 1 been specially designed for Ceratec porcelain powders. Due to its CTE and containing Berilium, makes it also full compatible with the most used porcelains in the market

Common Use: For metal-ceramic restoration

Is compatible with almost all porcelains in the market - Ceramco- Ceramco 2- Noritake- Ceratec - Vision

Formula CERAKAST 1 :

in % of the weight : Ni(78.9)Cr(12),Mo(4.6),Al(2.6),Be(1.8)

Nickel Chrome Ni-Cr Be (Dentalloys)

ALLOY SUPER-1 & Super-14 For Ceramic

Super 1 is the most recognized non-precious alloy in the world, and continues to be the top-seller at Dental Alloy Products.

Super 1, wit a CTE of 14,1 to 14,5 , is compatible with almost all porcelains in the market - Ceramco- Ceramco 2- Noritake- Ceratec - Vision

Super 14 with a CTE 13,6 to 14,0 , is compatible with VITA porcelains

Formula :

SUPER 1 : in % of the weight : Ni(77)Cr(14)Mo(4.7)Al(2)Be(1.8)

SUPER-14 : in % of the weight : Ni(72)Cr(15),Mo(9),Al(2),Be(1.8)

Articulator Paper

ARTICULATING PAPER (Accufilm)

- Parkell Accu-film is a super-thin articulating film of just 21 microns thickness (1/ 1500 inch).
- It does not produce false markings. It works on wet, saliva-contaminated occlusal surfaces, but is not brittle.
- It is very tear-resistant, and has virtually no elastic memory.
- Accu-film I is single sided supplied in 280 pre-cut strips 7/ 8" wide, in black, red and green colours.
- Accu-film II is double sided, supplied also in 280 strips, in colours red / red, black / black, and black / red.

ARTICULATING PAPER (Bausch)

- Since 1953, Bausch KG has specialized in the manufacture of special articulating occlusion test materials designed to represent occlusal proportions on the masticatory surfaces as true to nature as possible.
- From the outset, the founders of the company, dentists Dr. Jean Bausch and Dr. Hans Bausch, recognized the need to use pressure-sensitive articulating paper in order to present all the different masticatory forces in various colors.
- The principle of progressive color transfer remains an important method for the accurate detection of high spots.

BOOKLETS

VISION - 103466 Vision Enzo Articulator

US\$ 179.00

The Enzo Universal Plasterless Articulator

The Enzo Articulator is proving to successfully integrate with many of the leading digital model systems when a more accurate articulator is called for. The articulator continues to be a very popular choice with the use of standard models as it eliminates plaster and the resetting of articulations is achieved in seconds. It replicates true lateral and protrusive excursions. Lightweight and perfectly balanced, it fits comfortably in the technician's hand.

- *One Articulator for full arch or quadrant
- *Precision interlocking components provide very accurate articulations in seconds
- *Both upper and lower plates swivel 360 degrees on ball joints allowing for all types of movement handling even the most difficult bites
- *True lateral and protrusive excursion
- *Lightweight and perfectly balanced, it fits comfortably in the hand
- *Immediate bite changes made by the dentist
- *Disposable Universal Bases
- *Bases are easily glued to any model with a flat surface and both quadrant and full arch models are accommodated with this universal design

Autoclaves

Units

ECCO- 101890 Autoclave AC-16L 110V

US\$ 2,200.00

High Temperature High Pressure Autoclave Sterilizer

110volts

There are 2 sizes available : 2-01-01 18L
2-01-01 16L

All parts of apparatus are imported
Italy UKLA water pump
MOTORALA chip and pressure sensor
Imported vacuum pump
PARKER valve housing

PRODUCT CHARACTERISTIC:

1. It adopts European B standard, with 3-pre-vacuum preceding vacuum drying.
Residualhumidity is 0.1;vacuum measurement reaches 0.8bar.
Sterilizes miscellaneous instruments,successfully solved the problem that autoclavecan not sterilize plastic instrument.
 2. Computer control, pressure and temperature are displayed in digital.
 3. Quick spraying steam generator makes the inside temperatureof autoclave well-proportioned.
 4. Waste water tank water-full alarm system avoidingthe possibility of circulated sterilizing with waste water.
 5. Automatic malfunction detection alarm.
 6. The boiler is extended by 2.5mm stainless steel one shot.
 7. The scuppers at the bottom of the boiler make dryingmore convenient.
- Made in China under ECCO quality controls Standards

Bleaching Products

Desensitizer

ALPHA-EASE

ALPHA-EASE DESENSITIZER Alpha-Ease is a Hema/Glutaraldehyde desensitizer indicated for use on sensitive cavity preparations prior to the application of restorative material.

It provides a physiological seal within the dentinal tubules by polymerization with the proteins in the tubules.

The material provides virtually immediate relief from pain caused by hypersensitivity and is formulated with an antimicrobial to prevent microleakage.

Bleaching Units

Bleaching Units

ECCO- 101380 Led Bleach. Unit YS- TW-A 6000

US\$ 474.00

Teeth Whitening Unit ECCO TW-A

1. WHITE PRINCIPLE model: ECCO TW Teeth Whitening Unit is a new type whitening technology, based on the condition of strong blue LED light and whitening kit accelerator. By the character of nanometer pellet on the surface and Light decomposition, activate the most H₂O₂ in short order on low or normal temperature. Produce mass oxygen atoms permeate teeth and decompose color molecules, to meet the effect of teeth whitening.

2. CHARACTER

1. The specific wave length and high density light speed catalyze whitening gel.
2. 6 powerful LED tubes emit a high intensive cold blue light with an output at 6000 MW/CM²
3. Special design, innocuous silica gel muzzle, make sure stopping intersectional infection.
4. The new model of power supply make sure steady power output and long time continuous working even in some cities and places with mutative voltage.
5. Time display could show treatment time to help dentist master treating time and progress and reduce the waiting time of patient.

3. TECHNICAL PARAMETERS 1. Power supply: AV110-240V, 50HZ 2. Power: 60W
3. Light size: 30*80mm 24. Power density: >6000MW/CM² 25. Light timing: 0-20 mins 6. Power instability <1% 7. Working method: time output & continuous working
8. Coupling: polyester monowave

Bonding Agents

Dentine sealer

PULPDENT - 039-POLY Dentin Seal Kit 4x1.2ml syin

US\$ 23.10

Polyamide Dentin Sealant Kit

- 4 x 1.2ml syringes + 8 Pre-Bent Tips [P# POLY]
- It seals and protects the dentinal tubules
- It forms a thin biocompatible physical barrier that seals the dentin and protects the pulp against acids and other irritants
- It is virtually impenetrable by acids - cements - resins - and dental restoratives
- It also serves to insulate against thermal shock and to protect against microleakage

Bonding Agents

Drying Agent

PULPDENT - 101499 Dry-Rite Agent

US\$ 12.09

- Drying agent contains ethyl alcohol with an organic solvent
- [P# DRY] - complete chemical drying of dental surfaces before applying pit and fissure sealants
- silane - and in all clinical situations where residual moisture may effect bonding and cementation
- It dispenses one drop at a time from a syringe or bottle - dries immediately

Drying Agent Mini Dental Kit of 4 x 1.2cc SyringeS + 20 tips - [J# - 567020]

- Use drying agent after etching pits and fissures to be certain that all moisture is eliminate before bonding
- Apply to fissuresand allow to air dry or use syringe to dry

Bonding Agents
Enamel Bonding

ALPHA BOND

ALPHA-BONDACETONE BASED BONDING ADHESIVEAlpha-Bond is a Single Component Acetone Based Adhesive with a Dual Cure Activator (purchase separately) formulated to bond to multiple substrates for both direct and indirect bonding procedures.

It contains the hydrophilic monomer PMGDM that allows penetration into the tubules, intertubules and peritubuler dentin. For a single step light cure adhesive, use the bottle marked adhesive. By combining the dual cure activator with the adhesive, you can confidently bond to self cure composites and areas inaccessible to light.

PREDATOR (Solodent)

Solodent carbide burs are made from the highest quality, fine grade tungsten carbide, using a unique method of construction. The superior quality of these burs is archived by advanced manufacturing techniques using the very latest equipment backed by 20 strict inspections and control procedures trough the process. Our tungsten carbide burs not only meet, but greatly exceed stringent ISO,FDA BSI and CE European standars

**EMBRACE™
WetBond™
Class V**
Cervical Restorative Resin

Light Cure
Wet-Bondig
Radiopaque

- Bonds to the slightly moist tooth.
- Self-etching to dentin.
- Cures with all lights.
- 4 shades: A2, A3.5, B2, D2

TRIMMING AND FINISHING (SS-White)

SS White is a recognized industry leader in the manufacture of dental burs, both carbide burs and diamond burs. Using research and advanced materials science, SS White is an innovator in new dental products, dental procedures and dental lab products.

Burs Cutter Carbide

1/2 Shank Cutter Burs

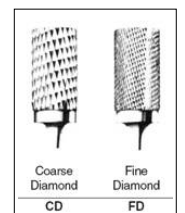

1/2 BUR CUTTER - DIAMOND CUT (Keystone)

- Fast material removal
- Smooth cutting action
- Reduced vibration
- Minimum heat build up
- Long tool life
- Minimal clogging
- Maximum toll control

3/8 BUR CUTTER DIAMOND CUT - Coarse (Keystone)

Long lasting carbide combined with a new technique of alternate diamond cutting on most burs provides benefits never before possible

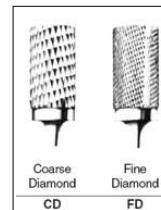

Code	Name	Price	+
034-1202181	KEYSTONE - 1/2-A Bur-1/2 Diam Cut.Max	US\$ 19.95	+Info
034-1202121	KEYSTONE - 1/2-B Bur-1/2 Diam Cut.Max	US\$ 19.95	+Info

034-1202124	KEYSTONE - 1/2-E Bur-1/2 Diam Cut.Max	US\$ 19.95	+Info

3/8 BUR CUTTER DIAMOND CUT - Fine(Keystone)

Long lasting carbide combined with a new technique of alternate diamond cutting on most burs provides benefits never before possible

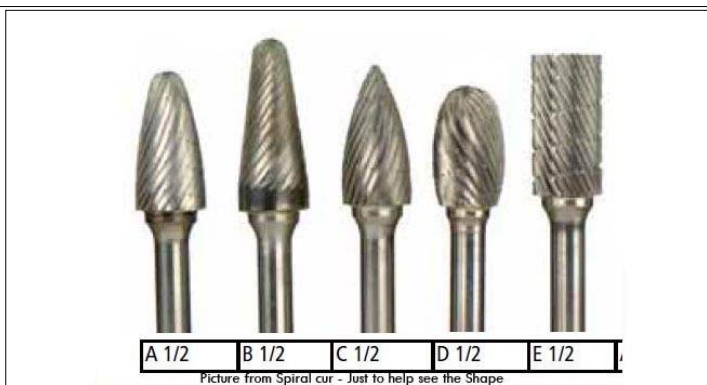

Code	Name	Price	+
034-1202154	KEYSTONE - 1/2-D Bur-1/2 Diam Cut.Min	US\$ 26.41	+Info
034-1202155	KEYSTONE - 1/2-E Bur-1/2 Diam Cut.Min	US\$ 26.41	+Info

1/2 BUR CUTTER SPIRAL CUT - (Keystone)

- Fast material removal
- Smooth cutting action
- Reduced vibration
- Minimum heat build up
- Long tool life
- Minimal clogging
- Maximum toll control

On a single cut bur all the flutes spiral in the same direction, generally this configuration produces less aggressive cutting action and leaves a smoother finish

Code	Name	Price	+

1/4 BUR CUTTER SPIRAL CUT - (Keystone)

- Fast material removal
- Smooth cutting action
- Reduced vibration
- Minimum heat build up
- Long tool life
- Minimal clogging
- Maximum toll control

On a single cut bur all the flutes spiral in the same direction, generally this configuration produces less aggressive cutting action and leaves a smoother finish

Burs Cutter Carbide

3/32 Cross cut

3/32 BUR CUTTER CROSSCUT - (Ecco)

- Fast material removal
- Smooth cutting action
- Reduced vibration
- Minimum heat build up
- Long tool life
- Minimal clogging
- Maximum toll control

On a double cut bur there are additional flutes spiraling in the opposite direction, generally this configuration produces a more aggressive cutting action, the finish may however be rougher than the single cut.

Burs Diamond

FG DIAMOND BURS (Ecco)

Friction Grip natural Diamond coated burs.
 Produced privated label by Many with Japanesse natural diamond powder.
 They can reach 90% Many standard quality controls.
 Excellent for fixed prothesis and dental laboratories.

FG ECCO BUR (Ecco)

Why ECCO ?

Why Ecco when you can buy similar products from other providers, or just directly from China ?

Well, ECCO is not just a name imprinted on some of our products

ECCO isn't just a private label somebody made up

ECCO started as the result of a quality controlled manufacture

Later on it became a Quality mark

Today is our signature

* Most of ECCO products have at least 3 manufacturers to assure the quality of the end product

* There is no contract with any special manufacturer

* A quality control settled in China before shipping to the US is our big difference

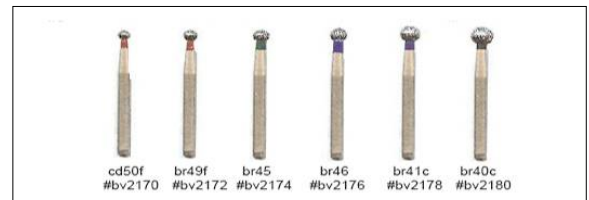

* The warranty is based in the USA

* US DENTAL DEPOT is responsible for the terms in the warranties

ALL ECCO BRANDED, OR STAMPED PRODUCTS, REGARDLESS OF POINT OF ORIGIN AND THE MANUFACTURER, ARE BACKED BY THE US DENTAL DEPOT CERTIFICATION OF QUALITY CONTROL

AS WELL AS OUR DIRECT WARRANTY SERVICE AND OUR FREE TECHNICAL SUPPORT IN 2 LANGUAGES ON THE PHONE OR BY EMAIL.

Casting Accessories
Wetting Agent

BEGO - 105064 Aurofilm Wetting Agent 3.5oz

US\$ 20.00

- Wetting agent for investment and releasing the surface tension of silicone duplicating moulds
Reliable preparation agent for investment in CrCo as well as crown and bridge work.
- Aurofilm eliminates the water-repellent effects of the wax pattern ensuring smooth casting surfaces.
- Aurofilm is also used successfully in the silicone duplication technique to reduce surface tension.

EDG- Powercast Induction Casting Centrifugal Machine - all common used alloys - Color Temperature Sensor - Fully automatic casting - Argon injection system included - Refrigeration system (separated) - 220 volts - 60hz- Dimensions : Wide : 630mm - Height : 530mm - Deep : 700mm - Weight : 65Kg [99 kg with wood cradle] - Volts 220 - Consumption : 3Kw max - 14 Amp - MADE IN BRASIL - WWW.EDG.COM.BR - (EDG is the biggest furnace manufacturer in Brasil) Furnaces : also with ONE year warranty on the muffles - SINTERIZATION FURNACES - 2 years warranty on the muffles - [dental lab equipment horno de porcelana] **POWER CAST 1700 INDUCTION CASTING MACHINE Technical information.**

Supply Tension: 220 volts diphasic.

Network frequency:-----50/60 Hz.

Maximum power:----- 3.000 Watts

Maximum current:----- 14 amp.

Casting maximum temperature:----- 1.750C

Water flow at 2kgr/cm:----- 4 liters /min

Argon flow :----- 10 liters / min

Maximum refrigeration water temperature:- 35C

Maximum room temperature.----- 40C

Net weight:----- 63 Kg.

Width----- 0,6 m

Height----- 0,53 m

Depth----- 0,72 m

Casting time: 0,6 gr/sec (nickel chromium alloy, casting temperature of 1.340c)

System operation: continuous, without cycles of limit.

Maximum velocity of the centrifuge arm: 450rpm

Minimum velocity of the centrifuge arm: 350rpm

Maximum diameter of the casting ring: 120mm 4.71 inches

Maximum length of the casting ring: 80mm 3.5 inches

Casting maximum capacity: 100 gr nickel chromium alloy.

Metals that can be casting: except titanium.

Package contains - Equipment. - 3 ceramic melting pots. - 3 ceramic receptors. - 5 ring mountings of several measures. - 1 water entrance hose. - 1 water exit hose. - 1 steel receptacle. - 1 water pressure inspection device. - 1 bracket. - Instruction manual. - Warranty certificate. Equipment with argon device is accompanied by one more hose and 2 brackets.

*Drop Shipped From Factory Location

Does not include equipment, heavy powders and hazardous materials

Cements and Liners

Cavity Liners

ECCO - 567030 LC Liner&Base Mini Kit 4x1.2cc

US\$ 25.00

Light Cure Liner and Base Mini Dental Kit - 4 x 1.2cc syringes + 20 tips - - A fluoride containing light cure liner resin to protect dentin and serve as a base under all types of restorations - On near exposures apply 0.5mm and cure - add additional layers in 2mm increments -

PULPDENT - 101440 Multi-Cal Hydrox 4 x 2.1ml syr

US\$ 31.92

Multi-Cal - Calcium Hydroxide Paste - 4 x 2.1 ml syringes - 8 applicator tips - [P# MULTI] Smooth Creamy calcium hydroxide preparation which is recommended for all clinical applications where calcium hydroxide is indicated - Cavity Lining and Indirect Pulp Capping - Direct Pulp Capping - Pulpal Curettage - Pulpotomy - Dentin Bridge Formation - Temporary and Intermediate Root Canal Therapy -

ECCO - 527010 Saliva Cure Temp Material 30gr

US\$ 6.00

- Saliva Cured Temporary Restorative Material
- 30gr jar
- Restorative material is a one component system easy to apply
- Then cured by contact with saliva
- Although firm setting and with excellent strenght
- The material can easily be removed with a bur

Cements and Liners

Desensitizer Cement

PULPDENT - 101505 Dentin Desensitizer 12ml bottl

US\$ 38.22

Dentin Desensitizer - 12ml bottle - contains glutaraldehyde - fluoride - and water [P# DES]

- It can be applied to all dentin surfaces - including cavity- crown - and inlay -preparations and cervical areas - as adesesntizing agent.
- It is not a dentin primer however it can be used in conjunction with adhesives and composites as well with provisional and permanent traditional dental cements.
- It does not interfere with bonding techniques and does not affect bond strengths of adhesives - composites - and resin cements -fluoride is added to enhance the stability of the solution.

Cements and Liners

Ionomer Luting Cements

ALPHA-DENT GLASS IONOMER

- Alpha-Dent Cements are specially formulated for superior strength, resistance to dissolution, and oral retention.
- They are impervious to oral fluids, and thus permanent under oral conditions.
- The material is recommended for cementing crowns, inlays, orthodontic bands, temporary fillings, fixed bridges, or as a base under any filling material.
- Kit Contains - 18g Powder, 17.5ml Liquid, Measuring Scoop, Mixing Pad
- Refill - 18g Powder, 17.5ml Liquid

 - Light cure fluoride releasing -Ortho Choice OBA
 - Provides secure bond - easy handling and rapid curing on demand - saving valuable chair time - designed to prevent bracket float - fluoride release protects enamel against recurring caries and decalcification under brackets

Cements and Liners

Phosphate Cements

PHOSPHATE CEMENT (Keystone)

Flecks Zinc Phosphate cement is and has been the leading choice of cements world wide for generations. This Zinc Phosphate cement has a wide range of applications from cementations to cavity liners. It is completely impervious to oral fluids, with stands the impact of mastication and occlusion, and retains full cementing strength in the thinnest films. Easy to use. Time tested for assured results.

Advantages:

- Impervious to oral fluids
- Available in a variety of cosmetically pleasing shades
- Retains cement strength even in the thinnest films
- Easily mixed
- Sets sharply to a relative strong mass from fluid consistency
- Adheres to crown and bridge materials
- Permanent cement with years of recognized excellence
- Outstanding retention and high strength

BEAUTIFIL FLOW (Shofu)

- A fluoride releasing dental flowable restorative material designed to provide optimal flow and handling Benefits: Compliments Beautifil to further enhance its applications
- Two distinct viscosities Beautifil Flow F02 (Low Flow) and Beautifil Flow F10 (High Flow) and maintains the same aesthetics, physical properties, particle size and filler load
- Ideal as a base or liner to help prevent caries recurrence
- It makes extremely easy to fill cavities and the operator can select each type depending on the clinical case
- Low Flow Type is effective to use where paste flows moderately and shape should be retained, such as cervical area
- High Flow Type is effective to use where smooth flow is necessary such as uneven place, narrow and complex part and usage for liner

ALPHA-SEAL LIGHT CURE

ALPHA-SEAL LIGHT CURE RESIN-BASED PIT & FISSURE SEALANT Alpha-Seal is a fluoride releasing, light cure, resin-based Pit & Fissure Sealant. This sealant contains 50% radiopaque nano-sized fillers. The hard setting, wear resistant material has an ideal flowable viscosity for maximum coverage and protection to seal the pits and fissures of teeth susceptible to caries. The fluoride assists in caries prevention and the inhibition of enamel demineralization. The syringe needle tips allow for quick and accurate placement of the material. Alpha-Seal is available in an Opaque shade to allow for easy identification during patient examinations and in a Clear shade for patients who wish to have an "invisible" sealant

Composites

Flowable Composite

ALPHA-FLOW

ALPHA-FLOW LIGHT CURE RESIN-BASED MICRO-HYBRID FLOWABLE COMPOSITE

Alpha-Flow is a radiopaque fluoride containing light cure resin-based micro-hybrid flowable composite. The specially formulated material incorporates both a nano-sized filler for increased flexibility and superior polishability and a 0.7 micron filler for excellent strength and wear resistance.

This special combination provides a material with extreme versatility for use in a wide range of procedures, including Class III and V cavity configurations and small Class I and II restorations.

Alpha-Flow contains fluorescence to provide a duplication of the natural tooth surface.

Light Cure Hybrid

ALPHA II AP

ALPHA II APLIGHT CURE MICRO-HYBRID COMPOSITE Alpha II AP is a radiopaque fluoride containing light-cure restorative composite.

The special combination of fillers form a material that is extremely durable and wear resistant; making it ideal for Class I and Class II restorations, yet highly polishable for use in all Class II, IV, and V restorations.

Alpha II AP has optimal handling characteristics. The material can be easily manipulated without sticking to your instruments. Alpha II AP contains fluorescence to provide a duplication of the natural tooth surface.

ALPHA-DENT LIGHT CURE

ALPHA-DENT LIGHT CURE COMPOSITE LIGHT CURE HYBRID COMPOSITE Alpha-Dent Light Cure Composite restorative is radiopaque.

It has the versatility of the hybrid composite while measuring high compressive strength with excellent polishability. This composite is appropriate for almost every type of restoration.

The material is available with the Exact Match System, which uses a specially designed computer program to match the composite color and translucency to the VITA shade guide

LIGHT CURE COMPOSITE KIT

There are 3 choices:

1. Syringe kit (no accessories)
2. Light cure composite with liquid etch system
3. Light cure composite with etchant gel system

-All these kits are also available in :

-Standard: A1, A2, A3, B2, B3, C3, D4

-Custom: You choose the shades (see refills for all shade options)

Core Build-Up Material

ALPHA CORE BUILD UPS

The materials exhibits ideal mechanical properties with high compressive and tensile strength yet maintaining a dentin like feel when cutting.

ALPHA CORE DC DUAL CURE

- This highly filled radiopaque, dual cure composite is designed specifically for core build-ups and cementations of posts and pins.
- The material exhibits ideal mechanical properties with high compressive and tensile strength yet maintaining a dentin like feel when cutting.
- Its ideal handling characteristics allow the materials to be placed with a syringe and depending on the shade of the base paste it can be used to match or contrast the tooth color.
- Available in Natural or Contrast Blue.

ALPHA CORE LC LIGHT CURE

- Alpha-Core LC is a highly radiopaque light cure composite having 5 mm average depth of cure designed specifically for core build-ups and cementations of posts and pins.
- The material exhibits ideal mechanical properties with high compressive and tensile strength yet maintaining a dentin like feel when cutting.
- Available in a unique color changing shade that is blue initially and turns pink when cured then back to blue in 3 to 7 days.

Curing Units

Boil out curing units

KEYSTONE - 34-1050159 Curing Unit for 8 Flasks 110v

US\$ 382.50

Keystone Denture Curing Unit

- Stainless construction for easy cleaning and anti-corrosion
- Can beused for both boil out and curing
- Thermostatic control for variable holding temperatures
- Cures upto 4 double flask compresses (8) denture arches UL listed
- Valve\spigot for easy emptying of water -110volt - 1380watts [polymerizator polimerizadoras
- Shipping Information: Weight 17lbs
- Dimensions : Height 16in x width 15in x depth 12in

All equipments are also available
in 220 volt. in our website...

Curing Units

Light curing units -

SELECT- 1901450 LC Maxi- Cure Lt 4 lamp 110v

US\$ 244.00

- Maxi-Cure Light
- Complete light curing unit with 5 and 10 minute timer - 4 lamps
- [11in wide x 5 in dephx 4.25in deep] - [27.5cm x 12.5cm x10.6cm]- 110vol [S# 1901450]
- 1 year warranty - light uses four 9 watt bulbs [included] and cures most light activated compsites including megatray
- Heavy duty construction makes the maxi cure light cure box a reliable way to cure materials - 16x12x10 12lbs

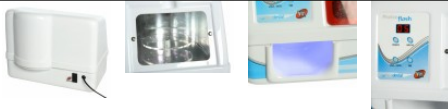

VH- 100833 LED Strbio & UV Light Cur Unit

US\$ 722.00

VH PHOTON LIGHT CURING LIGHT UNIT

- *Digital Timer
- *Set Up of 3 Different Type of Curing Lights
- * Stroboscopic Light
- *6 LED Lamps
- *2 Ultraviolet Bulbs
- *18 Month Warranty -Including Bulbs
- *Frequency 50-60HZ
- *110/220V
- *Dimensions: 290 x 167 x 232mm
- *Weight 4.4LB
- *Power Max: 5Watts
- *Incorporated Pre-Polimerizer LED to Improve and Facilitate work with Resin
- *Rotational Platform to Guarantee Light Access to All Work

Curing Units

Pressure Pot 1.5Gal

ECCO - 102522 ECCO-Press Pt W/Heat 1.5g 110V

US\$ 330.75

ECCO-Pressure Pot with HEATER - 6QT - 110V

- Made from aluminum - Includes a heatcontrolled thermostat
- Internal Gauge
- Temperatures are - adjustable and a lock valve allowsthe airline to release from the pressure pot [curing unit]

CFS - 280106 Pres Pot w/Heater 1.5gal 110v

US\$ 355.25

CFS PRESSURE POT W/ HEATER 1.5 GALLON

- Pressure Pot
- Heat
- 6Qt/1.5Gallon
- 110 or 220V
- Aluminum Housing
- This Pressure Pot Features a Heat Controlled Thermostat
- With an Internal Gauge
- Temperatures are Adjustable and a Lock Valve Allows the Airline to Disconnect From the Pressure Pot

Curing Units

Pressure Pot 2Gal

ECCO - 102524 ECCO-Press Pt w/Heater 2g 110V

CFS PRESSURE POT W/ HEATER 1.5 GALLON

- * Pressure Pot
- *Heat
- *6Qt/1.5Gallon
- *110 or 220V
- *Aluminum Housing
- *This Pressure Pot Features a Heat Controlled ThermostatWith an Internal Gauge
- *Temperatures are Adjustable and a Lock Valve Allows the Airlineto Disconnect From the Pressure Pot

CFS - 282106 Press Pot w/Heater 2gal 110v

US\$ 384.25

CFS PRESSURE POT W/ HEATER 2 GALLON

- *Pressure Pot
- *Heat
- *8Qt/2Gallon
- *110V
- *Aluminum Housing
- *Available in Gas Powered
- *This Durable Product is Constructed From Aluminum
- *Holds up tp 6 Poured Flasks

Curing Units

Pressure Pot No Heater

ECCO - 102521 ECCO-Press Pot No/Heater 1.5ga

US\$ 172.80

ECCO-Pressure Pot with NO HEATER - 6Qt

- Made from aluminum - Holds up to 6 flasks
- Need touse warm to hot water and a compressor when working with this product
- Also available withautomatic air regulator and heater

CFS - 279106 Pres Pot No/Heat 1.5gal

US\$ 185.60

CFS PRESSURE POT 1.5GALLON

- * Pressure Pot 6Quarts
- *110V
- *Holds Up To 6 Poured Flasks
- *Constructed From Aluminum
- *Available w/ Automatic Air Regulator and Heater

Curing Units

Washout only units

**WASHOUT SINGLE 1 TANK
(Handler)**

Washout unit only - Electric or Gas

- Single tank - 110vol
- Dimensions : [18in wide x 14in deph x 12in deep] - [45cm x 35cm x 30cm] [H# 26104]
- Built in 18gauge stainless steel.

ECCO-LIGHT-S-0 LED Curing 2000

Portable Curing Light Wireless 2000
For Orthodontics cementation
Excellent design - Stainless steel body
CE stamp certificate
Lithium Battery

2. Standard accessories:
Curing light
Connect line (each one set)
Special power supply
Operation manual and maintenance card

3. Technical parameters
Power voltage AC100-240V 50-60Hz
Input power 5W
Light intensity 2200mw/cm2
Wavelength 400-500nm
1 Year warranty

ECCO- 101381 LIGHT-S-I Led 1200nw/cm2

US\$ 175.00

LIGHT-S-I Led 1200nw/cm2

1. Product introduction - This product is used in fast solidification by lighting dental resin. It is a new generation of standard developed LED curing light, with humanity intelligent chip, the world advanced high intensity LED light and Li-on rechargeable battery. It can cure all the dental resin in the market nowadays, its performance is further surpass the halogen curing light's, which can **solidify 4-5mm deepness in 20 seconds.**

2. Standard accessories:
Curing light
Connect line (each one set)
Special power supply
Operation manual and maintenance card

3. Technical parameters
Power voltage AC100-240V 50-60Hz
Input power 5W
Light intensity 600mw/cm2 and 1200mw/cm2
Wavelength 400-500nm
1 Year warranty

ECCO- 101921 LIGHT-S-II Led 1400nw -Display

US\$ 198.00

ECCO LIGHT-S-II 1400 mW Item # 101921

Carton LED curing light S-II is a perfect combination of the highly efficient LED tube, the micro-control electric circuit and the rechargeable lithium battery. So it is featured with high efficiency, outstanding function, convenient operation, and longevity, making it become the latest top product in the global dentistry market. 1.

It can produce a strong blue light directly.

The depth of the polymerization of resin material can reach 2mm.

2. It is a kind of cableless machine, equipped with rechargeable battery. When charged once, the machine can be used for 40 minutes continuously.

3. The machine can hang directly on the toothchair or the rack for special use for safety and convenience.

4. Convenient to operate:

5. 3 preset curing light time from 10- 20- 30 seconds.

6. The light intensity can reach 500mW/cm2 - 900 mW and 1400 mW

SPECIFICATIONS AND EQUIPMENT CLASS

Power supply: Input voltage: 220VAC+10%

Output voltage: 4.2VDC+/-0.1 Output current: 600+/-50 mA

Internal power supply lithium battery: 3.7 v saturated electricity measures 700mAh charging time: about 2.5 hours

Equipment class: Class A (Medical Appliance Classification Catalog)

Protection from ingress of liquids: None

Lamp: 3.6V AC, 3W

Output wavelength range: 420-480nm (nanometers)

Feature size: 20*198mm

Net weight: about 105g

Warranty: one year Standard accessory include: adapter 1 pc , (European or American type) , sterilize sheet 1pack (50pcs) user's manual

ECCO - 102285 Light-S-IV Cur/Bleach Lite LED

US\$ 300.20

ECCO-LIGHT-S-4

Excellent For Bleaching and Curing Orthodontics

*1400-2200mW/cms

*Curing Light

*5 Watt LED

*Handpiece

*Charging Base

*Lithium Battery Charger

*Eye Protector Cover

*Optic Light Guide

*User Manual

*Beep At Each 5 Second to Indicate Curing Time

*Seven Pre-Set Curing Times: 5/10/15/20/25/30/40 Seconds

*Cord/Cordless(Both)

*Three Pre-set Programs

*Fast-Soft Mode 1- Soft Mode 2

Dust Collectors

1 Station Dust Collectors

HANDLER - 103488 #76D0 Bench Top

US\$ 402.36

- *76D-0 Bench Top Dust Collector
- *A bench top polishing unit designed to provide 365 CFM (cubic feet/minute) [172m3/min.]
- *Suction intake through two frontal suction inlets
- *Constructed of heavy gauge sheet steel
- *Finished in a durable, baked coating.
- *Two 10 x 12 x 2 [25cm x 30cm x 5cm] (480 cubic inches) [7.9m3] reversible and replaceable filters entrap dusts as small as 5 microns and larger
- *Shipped complete ready for use with your lathe

- * or it may be purchased with a No. 26A Red Wing Polishing Motor (SEE 76D3)
- *Two aluminum pumice/polishing pans are provided to hold wet pumice and dry grindings
- *This unit is NOT recommended for use with gypsum dust or ALO.

Technical specifications:

- Shipping Wgt.: 54 lbs [24.5 Kg]
- * Unit Dimensions: 29 wide x 20 1/2 deep x 13 high [74cm x 52cm x 33cm]
- *Model: 76D-0

HANDLER -103481 #66A Under Bench Porta Vac

US\$ 440.02

- *66A Under Bench PORTA-VAC
- An under bench single position dust collector for use in collecting dry grinding and polishing dusts from lathe or handpiece operations.
- *Suction capacity of 150 CFM (cubic feet/minute) [71m3/min.]

Shipped complete with:

- *83WL splash hood
- * 3 1/2 feet of 3 [7.6cm] flexhose
- *An under bench canister with suction unit mounted on top
- * Not for wet dust or heavy grinding operations, eg. ALO.
- * Shipped complete ready for set up under the bench with table top splash hood.
- *May be shipped with a bench top fishmouth in lieu of a splash hood.

Technical specifications:

- Shipping Wgt.: 23 lbs [10.4 Kg]
- *(shipped in two cartons)
- *Unit Dimensions:
- *Bench Hood - 6 wide x 10 deep x 12 high[15cm x 25cm x 30cm] (WITH LIGHT)
- *Canister - 10 wide x 6 deep x 22 high [25cm x 15cm x 56cm]
- *Model: 66A

Dust Collectors

Multi Stations Dust Collector

HANDLER - 103490 #77 Dust Collector w/Bag

US\$ 1,715.00

77 Dust Collector with Bag

- *A 3/4 HP suction unit
- *Designed to provide suction for up to three 3 [7.6cm] work positions, simultaneously
- *Powered by a ball bearing
- *Capacitor start industrially rated motor
- *Contains 62 square feet [5.8m²] of cloth filter area
- *24 cloth filters are cleaned with the aid of an external foot shaker
- *Generates 600 CFM (cubic feet/minute) [283m³/min.] through the inlets provided

Technical Specifications:

- *Standard voltage is 110Volts/60Hz
- *Shipped complete with switch and box type silencer
- *A stack silencer is available at additional cost.
- *Finished in a durable, baked coating.

- *Suction - 600 CFM (cubic feet/minute)[283m3/min.] through inlets provided
- *Filter Area - 62 sq. ft. through 24 shakeable filter bags.
- *Cleaning - External foot Shaker
- *Removable cabinet tray.
- *Shipping Wgt.: 240 lbs [108.9 Kg]
- *Unit Dimensions: 24 wide x 20 deep x 38 1/2 high [61cm x 51cm x 98cm]
- *Available with polyester bags for use with aluminum oxide, at additional cost.
- *Model: 77

VANIMAN - 103470 V6 for up tp 6 stations 110V

US\$ 2,716.35

- V6 Dust Collector
- *Up to 6 stations
- *New ultra quiet brushless motor (59 decibels on high)
- *Variable speed control
- *Hepa cartridge filtration
- *Push button Air-Pulse filter maintenance system
- *Large dust collection tray
- *2 year warranty

Technical specifications:

- *110V
- *12.50Amps
- *Shipping Dimensions: 41 x 26 x 25in
- *Weight: 136lbs

HANDLER -101888 550 Port-a-vac Bench Top 110v

US\$ 272.69

- *550 Porta-Vac bench top dust collector
- *Handler Manufacturing announces a new and improved Porta-Vac unit Model #550
- *This is replacing the traditional Model #66 Porta-Vac.
- *It is perfect for bench top light grinding and polishing with a hand piece or lathe.
- *Featured enhancements include 40% more suction power
- *Compact in line suction design
- *Removable resin clean out tray
- *Replaceable clear acrylic shield
- *Reusable and replaceable pleated rear filter
- *Also, the #550 comes with a florescent light for hours of cool, bright operation.
- *Will collect 0.5 microns of dust and larger particles.
- *The unit was designed for better, more efficient performance and easy operation.
- * Take it out of the box, install the light, plug it in, and it is ready for use.
- *The durable white powder coated heavy gauge steel frame is built to last
- *The unit is made in the USA by Handler
- *The compact, lightweight and efficient #550 Porta-Vac is 81/2wide x 12high x 12deep.
- *Shipping Weight: 17 lbs
- *Unit Dimensions: 8 1/2wide x 12high x 14deep
- *Model: 550

HANDLER - 103389 Etcher Catcher w/dust collect

US\$ 361.62

- #52CSU Etcher Catcher w/filter and self contained dust collector New Dust Collector -collects dust created by the used of aluminum oxide blasting pencils - Construted to be ergonomically accomodating when used with hand held blasting pencils - preventing dusts from collecting on table tops and surrounding areas - ***52CSU Etcher Catcher with Filter and Self Contained Dust Collector**
- *For use with your dust collector
- *Collects dusts created by the use of aluminum oxide blasting pencils
- *Offered in three configurations
- *The Etcher Catcher is constructed to be ergonomically accommodating when used with hand held blasting pencils
- *Preventing dusts from collecting on table tops and surrounding areas

Technical specifications:

- *Shipping Wgt.: 16 lbs [7.3 Kg]

*Unit Dimensions: 11 wide x 16 deep x 9 high [27.9cm x 40.6cm x 22.8cm]
*Model: 52CSU

**VH-100834 Work Station Chamber
110/220V**

US\$ 126.11

- VH- WORKSTATION CHAMBER with dust collector for small particules
- Wide window for better work visualization
 - Modern design
 - Polystyrene box of high impact confectioned in 3mm thickness
 - Viewfinder crystal of 1 1/2 mm with protective film to prevent saturation of viewfinder
 - Removable case to facilitate cleaning
 - Vacuum system included-for unwanted particles that during worktime confuse visualization of parts - this eliminates the need of using protective masks for breathing for the operator
 - Washable and reusable air filter -
 - Auto voltage 110/220volts
 - Dimensions: 340 x 340 x 210 mm - 50/60 Hz - Liquid Weight 1.5kg

Apex Locators

ECCO - 101954 ECCO-Apex Locator #5

US\$ 225.00

Apex Loccator Joypex 5 Item # 101954

Apex Locator Joypex 5 adopts the fifth generation circuit- T Surge Frequency & Low Frequency in the area of apex locator.

DISTINCTIVE FUNCTIONS :

- *Frequency operating system-0.1mm length determination
- *Works in dry or wet canals
- *Adjustable LCD angle of view
- *Self calibrating
- *LCD panel could show the moving trace of file in the canal
- *Autoclavable file holder to avoid cross infection
- *Audible warning system
- *Adjustable volume of the sound indicator
- *Excellence in working length determination comes with 5 different setting of apical adjustment around the minor diameter
- *CE 0197 STANDARD ACCESORIES
- *main unit 1 pc, testing cord 1 pc
- *file holder(autoclaveable) 2 pcs *contrary electrode 4 pcs, user's manual 1pc
- *root canal ruler (optional)

ECCO - 102431 ECCO-Pex-II Apex Locator #6

US\$ 245.00

ECCO-Pex-II Apex Locator

- Includes main unit [1 piece] - testing cord [1pc] - file holder [autoclaveable]
- Contrary electrode [4pcs] - users manual - root canal ruler [optional]
- Function: operating system 0.1mm length
- Works in wet or dry canal Multi Frecuency gives more accuracy in lectures
- Adjustable LCD angle of view - self calibrating
- LED panel could show the moving trace of file in the canal
- Autoclavable file holder to avoid cross infection
- Audible warning system
- Working length determination comes with 5 different setting of apical adjustment around the minor diameter
- Denapex

SPECIFICATIONS

- *Voltage: DC8.4V
- *Power: 5W
- *Torque: 6-52mn*m
- *Display: reflecting LCD Screen
- *Battery: Chargeable Li-on Battery 3.7 x 2
- *Current: < 500mA
- *Speed: 100-625 RPM

FEATURES

- *Adjustable Speed: 22 Settings For Adjustable Speed Ranging from 100-625rpm
- *Adjustable Torque the Torque Exceeds the Regulated Value, The File will Reverse to Avoid Break-off
- *Saving Function: Nine Groups of Program Data Can Be Saved
- *Easy Operating with LCD Screen
- *Built In Rechargeable Battery
- *Start The Rotation of the Ni-Ti Files with Foot Control Pedal
- *1 Year Warranty

Special Taper Points

- Time saving with easy filling
- For faster and easier root canal obturation
- Variable tapers & sizes
- Length marking available
- Excellent radiopacity
- Long shelf life and freshness assured
- Suitable for vertical and lateral condensation

Sizes

.04 Taper : 15 to 90

- .06 Taper : 15 to 40
- .08 Taper : 15 to 40
- .10 Taper : 15 to 40
- .12 Taper : 15 to 40

Endodontics

Hedstroen Files SS & NITI

IMD - ECCO NITI HEDSTROEN FILES 21mm

- Highly efficient enlargement of root Canals in filing motion
- Exelent cutting ability, precision cutting edges and unique griding technique
- Flat cutting angles towards the tip ensure high resistance to fracture
- Special steel alloy with uniform structure-
- The inactive tip conducts the instrument safely along the canal
- Instrument type and ISO size are clearly marked on the handle
- Radiopaque depth marks
- Additional length marking on handle
- With pre-mounted silicone stoppers
- Used in probing motion towards apex, then pulling back motion
- Box of 6 pieces

Endodontics

K Files - S-Steel & NiTi

IMD - ECCO NiTi K FILES 21mm

- For preparation of severely curved and narrow root canals
- NiTi, improved handle
- Triangular cross-section for highest cutting efficiency.
- More cutting edges than flexicut reamers
- Cutting angle effective with filing motion
- NiTi allow with uniform structure for maximum
- Resistance to fracture and maximum flexibility
- The inactive tip conducts the instrument safely along the canal
- Radiopaque deph marks
- Box of 6 pieces

IMD - ECCO NiTi K FILES 31mm

- For preparation of severely curved and narrow root canals
- Stainless steel, improved handle
- Triangular cross-section for highest cutting efficiency.
- More cutting edges than flexicut reamers
- Cutting angle effective with filing motion
- NiTi allow with uniform structure for maximum
- Resistance to fracture and maximum flexibility
- The inactive tip conducts the instrument safely along the canal
- Radiopaque depth marks
- Box of 6 pieces

Does not include equipment, heavy powders and hazzardous materials

IMD - ECCO NiTi ENGINE K FILES

- For preparation of severely curved and narrow root Canals with a filing motion
- NiTi, improved handle
- Triangular cross-section for highest cutting efficiency.
- More cutting edges than flexicut reamers.
- Cutting angle effective with filing motion
- Taper /02 provide high stability and flexibility in severely curved and narrow root canals
- Special steel alloy with uniform structure for maximum resistance to fracture and maximum flexibility
- The inactive tip conducts the instrument safety along the canal
- Recommended speed 280-300rpm
- Box of 6 pieces

Oburation System

ECCO - 102222 Gutta Percha Obturation System US\$ 1,250.00

GUTTA PERCHA OBTURATION SYSTEM

- Oburation Gun
- Oburation Pen
- Gun Needles x 3pcs
- Charging Base
- Adapter
- Heat Insulator x 2pcs
- Stand for Gun
- Stand for Pen
- Pen Tips x 4pcs
- Battery x 3pcs
- Accessory Tool
- Brush x 2pcs
- English Manual

FEATURES:

- *Perfect Cordless 3-Dimensional Obturation System
- *Fantastic Combination of Filling Method of vertical Compaction and Backfill
- *Excellent Hermetic Sealing with 3-Dimensional Filling
- *Excellent Apical Control & Oburation of Anatomically Complicated Canals
- *Condensed Gutta Percha Makes Fill Oburation
- *Digitizing Temperature Display Contributes to Convenient Setting of Temperature
- *Easy to Learn and Operate

CHARGING SYSTEM:

- *Operating Voltage DC 3.6V
- *Adapter Input: AC 100-240V Output: DC 4.5V
- *Charging Time 3 Hours
- *Continuous Heat up Time for gun after fully charging 60min
- *Continuous heat up Time for pen after fully charging 40min

Oburation Gun:

- *Heater DC 3.6 V 8W
- *Temperature Sensor Thermocouple
- *Heating Time 2 min
- *Temperature Range 50-200 Degrees Celsius

Oburation Pen:

- *Temperature Sensor K Type
- *Heating Time 2-10 Seconds
- *Temperature Range 150-350 Degrees Celcius

Battery (Li-on):

- *Capacity DC 3 3.6V 2.2AH
- *Dimensions 25 x 75
- *Operatuing Condition Temperature 0-40 Degrees Celcius

IMD-ECCO NiTi REAMERS FILES 21mm

- For safe root canal preparation with a reaming motion
- NiTi with improved handlelso
- 150-40 square cross-section for better fracture resistancelso
- 15-40 triangular cross section for better cutting efficiency
- Instrument type and iso size are clearly marked on the handle
- Radiopaque depth marks
- Additional length marking on habdle
- Special steel alloy with uniform structure for maximum
- Resistance to fracture and maximum flexifility
- The non cutting tip guides the intrumentsafely along the canal
- With pre-mounted silicone stoppers
- Additional length marking on handle
- With pre-mounted silicone stoppers
- Box of 6 pieces

Flexible Nylons

Cements for flexibles

ECCO - 102130 #221 Aron Alpha Cement 20gm

US\$ 12.00

#221 Aron Alpha Cement - 20gm - Special Formula for Additions on NYLON (Repair) -- ADD on Adhesive for Nylon cold cure Bonding to Nylon ---[H# 749-6853] --- Must be used to add Clasp-eze to acrylic - Flexite Plus and Supreme - [Keyw - aaronalfa liquid adhesive liquido adhesivo ganchos] **Special Cold Add On formula designed for additions on Flexite plus and other plastic brands. (Nylon to Nylon)**

TECHNIQUE FOR RE INJECTING FLEXITE

A) Roughen the area or section where acrylic is to be added. We suggest you use a paper roll and put in minor grooves with a square #563 burr. Blow off and leave stubborn fibers in place. They will be absorbed and dissolved by the bonding agent. This technique is recommended for relining lower saddles or adding teeth in non-flexing areas.

B) Apply Flexite bonding agent (Aron Alpha 221) to the roughened surface and allow it to dry.

C) Prepare two dampen dishes. Select Rapid Set color of choice and fill one dampen dish with Rapid Set powder and the other with a quick cure monomer.

D) Apply with a brush. After build up, put the partial into a pressure pot for approximately (7) minutes at 140 degrees Fahrenheit.

CFS - 208106 CFS Cement 4 Denture teeth

US\$ 5.00

CFS Cement - Specifically designed for securing teeth in plaster prior to injection - [C#208106]

Flexible Nylons Flexite Acetal

ACETAL RESIN (Flexite)

FLEXITE ACETAL

- Chemical Family: Acetal Resins Compared with Duracetal Recommended

1. Acetal Frames (like alloy frames)
2. Clip on Veneers
3. Tooth color clasps
4. Provisional Splints

Characteristics

1. Inherent strength, will never break
2. More flexible than alloy frames
3. Can be re adjusted / adapted to the stone model with the heatgun (this could never be done in an alloy frame)
4. Can be thinned down without loss of memory or shade - Allowing delicate clasps designs
5. Clasps and roach type clasps feasible

- 6. Requires a careful design in blocking out undercuts areas, clasp positions, retainers and supports, like in the alloy frames in
- 7. Chrome cobalt
- 8. Nothing will stick to it (like in alloy frames either)
- 9. Acrylic will stick on it based on mechanical retentions (like in alloy frames)
- 10. Can not be easily repaired (like alloy frames either)
- 11. Tooth Color Shades: 61, 62, 65, 66, 67, 69, 77, 81 and cross link to Vita shades too (A1 A2 etc)
- 12. No Pinks or Clear shades available

**Flexible Nylons
Flexite Guard**

GUARD (Flexite)

FLEXITE GUARD Chemical Family: Styrene-Ethylene Block Co-polymer

- 1. Elastomer (Thermoplastic Rubber)
- 2. Recommended Mouth guards in sports

Characteristics

- 1. Elasticity
- 2. Flexibility
- 3. Easy Processing
- 4. Nothing will stick to it (thermoplastic rubber)
- 5. No usable as a reliner since will not stick to the denture Keeps shape and form
- 6. Shades: Blue, Pink, and Natural

**Flexible Nylons
Flexite MP**

MP MULTI-POLYMER (Flexite)

FLEXITE MP

- Chemical family - Methyl Methacrylate Blend (Multi- PolymerAcrylic)
- Compared with regular High Impact heat cure acrylic like Lucitone but Monomer free, faster and easier to manipulate.
- Recommended - Full Dentures, TMJs, Bruxism, Provisionals for Implants in progress, Anti-Snoring Devices, and Silicone-Acrylic Combinations

Characteristics

1. Hi-impact Acrylic. Above average impact and dimensional fit.
2. Perfect Crystal clear comes easy
3. Can be relined or added to with standard repair acrylic
4. Can be relined with a soft reliner silicone based using Flexil
5. Monomer Free
6. Can be added and repaired with regular monomer acrylic
7. Standard colors: Pink, Lucitone Pink, Ethnic Coe Brown andClear

Flexible Nylons

Flexite Supreme

FLEXITE SUPREME

- Chemical family - Co-Polyamides (Casted Nylon)
- Comparable with TCS, just for the polishing conditions
- FlexiteSupreme is way superior in color stability, shrinkage , tensile strengthand dimension stability (more memory)
- Comparable in its properties to FRS (Dentsply)

Characteristics

1. True cast thermoplastic with excellent dimensional fits,comparable to alloy castings
2. Clasps and roach type clasps feasible
3. Gum retainers can be done due its flexibility
4. Designs can be Tooth and Tissue supported (Dento-mucosupported)
5. Requires a careful design in blocking out undercuts areas , clasppositions, retainers and supports, like in the alloy frames inChrome cobalt for example
6. Can be relined and added mayor areas by re injecting and usingRepair liquid as an adhesive
7. Can be added and repaired in non flexible areas with Rapid setand using Aaron Alfa as Adhesive
8. Acrylic will stick and chemically glue on it with the use ofAaron Alfa
9. Can be relined with a soft reliner silicone based using Flexil
10. Polishes to a high gloss
11. Bio-compatible
12. Clinically unbreakable

- 13. Can be re adapted to the stone model with the Heat gun with great stability
- 14. Can add esthetic clasps using Clasp Eze and Aaron Alfa as an adhesive
- 15. Almost No Shrinkage comparing with Plus
- 16. Shades: Lt. Pink, Dk Pink, Natural tooth color , Natural Clear Ethnic Brown, and Ethnic Coe 22 Tooth Color Shades: 61, 62, 65, 66, 67, 69, 77, 81 and cross link to Vita shades too (A1 A2 etc)

PLUS POLYAMIDE NYLON (Flexite)

FLEXITE PLUS

- Chemical family (Polyamide Nylon) Comparable with Valplast but more Flexible and color stable than Valplast

Characteristics

1. Unbreakable
2. Bio Biocompatible
3. Can be added and repaired in non flexible areas with Rapid set and using Aaron Alfa as a adhesive
4. Can be relined and added mayor areas by re injecting and using Repair liquid as an adhesive
5. Can be relined with a soft reliner silicone based using Flexil
6. Requires less precision in the design and block out of undercut areas due its flexibility.
7. Designs are mostly tissue supported
8. Can add esthetic clasps using Clasp Eze and Aaron Alfa as an adhesive
9. Variety of shades and three ethnic colors (Lt. Pink, Dk. Pink, Translucent Pink, Con pink, Clear translucent Ethnic Brown, Purple Meharry, and Coe Ethnic Moderate)

Alginate Phase Plus 3-phase Chromatic 453gr - 1lb - Setting and working time 2 min 35 sec - Spearmint flavor - Violet phase :
Mixing time - Pink phase : processing time - White phase : insertion in the mouth - Dust free - Tixotropic -

ZHERMACK - 100607 Algi. Orthoprint X-Fast 500gr

US\$ 11.31

Alginate Orthoprint Extra Fast Set 500gr - 1lb + - Setting and working time 1 min 50 sec - Vanilla flavor - Dust free - Tixotropic -

**EMBRACE™
WetBond™
Class V**
Cervical Restorative Resin

*Light Cure
Wet-Bondig
Radiopaque*

- Bonds to the slightly moist tooth.
- Self-etching to dentin.
- Cures with all lights.
- 4 shades: A2, A3.5, B2, D2

ZHERMACK - 103545 Alg. Tropicalgin 3-phase 1lb

US\$ 11.31

Alginate Tropicalgin 3-phase Chromatic 453gr - 1lb - Setting and working time 2 min 35 sec - Mango flavor - Red phase : Mixing time - Orange phase : processing time - Yellow phase : insertion in the mouth - Dust free - Tixotropic -

KROMALGIN - 103693 Kromalgin Alginate 453gr

US\$ 7.50

*Kromalgin Alginate
*453Gr
*Indicated for all routine dental impressions
*Reproduction of detures, orthodontic appliances and study model

Technical Specifications

- *Phase chromatic indicator
- *Fast settings
- *Setting time 2'30"
- *High elasticity
- *Dust free
- *Easy removal without deformations
- *Please see PDF for complete instructions

Applicator Gun

ECCO - 103792 Dispen Gun for Impress Materia

US\$ 64.00

Dispensing Gun for Impression Material - High Performance cartridge dispensing gun - Handless all standard dual cartridges applicator gun

Impression Materials
Bite Impression Material

ECCO - 103801 ECCO-Bite Silicone Mat Kit US\$ 55.00

- *ECCO- Bite Silicon Material - Catalyst and Base Kit
- *Available in bulk jars for economy
- *Specially formulated silicone bite registration material
- *For full arch occlusal registrations
- *Ideal material for perfect bite registrations, mounting models, and white trimming models
- *Easy and fast hand kneading of material and rapid set for patient comfort
- *No cartridge, mixing tips or special gun required

Technique for a perfect bite:

1. use 1/2 measure base (blue) and 1/2 measure catalyst (white)
For openbites or orthognathic problems use a full scoop of each
2. Using only vinyl gloves, knead material for 30seconds until silicone is an even color
3. Roll out silicone in a sausage shape the length of the mandibular arch
4. Place sausage on occlusal of mandibular teeth
5. Guide patient into occlusion
6. Working time from start to finish to set in the mouth is about 75seconds

- Dimensions: Height: 17in [431mm] - Wide: 17in [431mm] - Depth : 16in [406mm] - Shippingweight: 49lbs --
- Heavy-duty capacitor motor start ball bearing motor - adjustable work table -fullradius water spray - reversible grinding wheel - hinged door - manufactured in usa.

MODEL TRIMMERS 12in (Handler)

Handler 12in Model Trimmer - 1/2HP

- *A 12? [30cm] diameter Trimmer designed for the laboratory who trims plaster and stone models on a daily basis.
- *Powered by a FULL 1/2 HP ball bearing
- *Capacitor start motor
- *Features a larger frontal opening
- *Additional SFM (Surface Feet per Minute) grinding capacity to trim models faster and easier.
- *Swing-open front housing with full wheel radius water spray
- *Internal gutter and ?splines? for water diversion
- *Surrounding drip trough
- *Motor curve with utility tray which are standard features on all Handler Trimmers
- *Make this trimmer an excellent addition to the working laboratory

Shipped complete:

- *Ready to use with minor set-up
- *Finished with a durable, baked coating
- *Shipping Wgt.: 54 lbs [24.5 Kg]
- *Unit Dimensions: 16" depth x 15" wide x 14 1/2" high [41cm x 38cm x 37cm]

Handler 12in Model Trimmer - 1/3HP

*Identical features to the model trimmer above except for the lower torque feature

Handler 12in model Trimmer - 3/4HP

- *Designed for the lab who trims plaster and stone models on a daily basis
- *Features larger frontal opening
- *Additional surface feet per minute grinding capacity to trim models faster and easier
- *Rest of the features are the same as the model trimmers above

ECCO - 3757174 Arch Forming Plier

US\$ 34.00

ECCO-Plier - Arch Forming Plier Plier makes consistant repeatable bends - Forms double back bends in .030in wire for use with lingual sheaths - [orthodonticpliers]

ECCO - 3757127 Arch Forming Plier- NonGrooved

US\$ 23.00

ECCO-Plier - Arch Forming Plier Non Grooved. Modified with a non grooved contouring surface for the forming at precise arches [orthodonticpliers]

ECCO - 3757107 Arch Forming Plier-Angled Beak

US\$ 23.00

ECCO-Plier - Arch Forming Plier Angled Beak Allows easy placement from the lingual of the anterior segment of edge arch wires and increases torquing capability when used in a two plier technique [orthodonticpliers]

ECCO - 3757113 Band Seating Plier

US\$ 23.00

ECCO-Plier - Band Seating Plier [orthodonticpliers]

ECCO - 3757136 Bird Beak Plier

US\$ 23.00

ECCO-Plier - Bird Beak Plier For Bending Round - Square - or Rectangular Wire - up to 0.76mm [orthodonticpliers]

ECCO - 3757168 Clasp Adjust Plier-3Prong Prec

US\$ 23.00

ECCO-Plier - Clasp Adjusting Plier - 3 Prong Precision Tips Precision Tips for accurate wire and clasp adjusting and contouring - Also an excellent plier for bending of orthopedic appliances - Superior strength for wires up to .030in [orthodonticpliers]

ECCO - 3757092 Clasp Adjusting Plier -3Prong

US\$ 34.00

ECCO-Plier - Clasp Adjusting Plier - 3 Prong [orthodonticpliers]

ECCO - 3757104 Crown Remover Plier - Lower

US\$ 23.00

ECCO-Plier Crown Remover Plier - Lower [orthodonticpliers]

ECCO - 3757105 Crown Remover Plier - Upper

US\$ 23.00

ECCO-Plier Crown Remover Plier - Upper [orthodonticpliers]

ECCO - 3757128 De La Rosa Arch Form Plier

US\$ 23.00

ECCO-Plier -De La Rosa Arch Forming Plier - Grooved Designed to form and contour arch wires with or without torquing on round or rectangular wire - The beak has grooves of 0.41mm - 0.46mm - 0.56mm - [orthodonticpliers]

ECCO -3757170 Detailing Stop Plier

US\$ 23.00

ECCO-Plier Detailing Stop Plier Double sided offset beak permits bends - Creates right hand step up or step down at 1/2 - 3/4 / 1mm increments [orthodonticpliers]

ECCO - 3757118 Diagonal Cutter Plier

US\$ 34.00

ECCO-Plier - Diagonal Cutter Plier - bends and cuts up to 1.30mm Compound action excellent laboratory or chairside instrument with black code jaws for modifying facebows or cutting heavy wire applications - [orthodonticpliers]

ECCO - 3757130 Direct Band Remover -Long

US\$ 23.00

ECCO-Plier - Direct Band Remover Short - Pad Type [orthodonticpliers]

ECCO - 102325 Direct Bond Brac Remover -Narr

US\$ 23.00

ECCO-Plier - Direct Bonding Bracket Remover - Narrow Point - With Pad [orthodonticpliers]

ECCO - 3757109 Direct Bond Brac Remover -Wide

US\$ 23.00

ECCO-Plier - Direct Bonding Bracket Remover - Wide the tips wedge between edges at brackets base and tooth surface lifting bracket ff with virtually no stress [orthodonticpliers]

ECCO -3757132 Direct Bond Brac Remover w Pad

US\$ 23.00

ECCO-Plier - Direct Bonding Bracket Remover w/ Pad Designed for quick comfortable removal of direct bonded brackets and elimination of adhesive residues - Large point - [orthodonticpliers]

ECCO - 3757093 Distal End Cutter

US\$ 34.00

ECCO-Plier Distal End Cutter plier Safety hold is ideal for cutting wires [orthodonticpliers]

ECCO - 3757147 Distal End Cutter - Small

US\$ 23.00

ECCO-Plier Distal End Cutter Plier -Small Small compact design for easier access - Safety hold is ideal for cutting wires with the patients mouth - Plier sheathcuts hard wires close to the buccal tube and holds loose wires - Max cutting capacity archwires up to .022x.028in [orthodonticpliers]

ECCO - 3757146 Distal End Cutter -Safety Hold

US\$ 23.00

ECCO-Plier Distal End Cutter plier -Safety Hold Safety hold is ideal for cutting wires within the patients mouth - Plier sheancuts hard wires colse to the buccal tube and holds loose wire max cutting capacity: arch wires up to .022x.028in [orthodonticpliers]

ECCO - 3757086 Flat Nose Plier 13.5cm

US\$ 23.00

ECCO-Plier - Flat Nose Plier 13.5cm [orthodonticpliers]

ECCO - 3757138 Flat Nose Plier w/ Smooth Beak

US\$ 23.00

ECCO-Plier - Flat Nose Plier w/ Smooth Beaks for bending wires up to 0.76mm [orthodonticpliers]

ECCO - 3757161 Flat on Flat Plier

US\$ 23.00

ECCO-Plier - Flat on Flat Plier Stubby - Square Beaks .045 at tip and parallel at 1mm opening - Easily bends and forms wires up to .050in [orthodonticpliers]

ECCO - 3757062 Goslee 13.5cm- Contouring

US\$ 23.00

ECCO-Plier - Goslee 13.5cm - Contouring Plier - [orthodonticpliers]

ECCO - 3757163 Holl Chop Arch Forming Plier

US\$ 23.00

ECCO-Plier Holliner Chop Arch Forming Plier Smooth working area is ideal for forming and contouring arch wires - Useful in placing accentuetted curves in wires - Excellent plier for forming Nitanium Archwires [orthodonticpliers]

ECCO - 3757096 Hook Crimping Plier

US\$ 34.00

ECCO-Plier Hook Crimping Plier - Angled Straight Safety hold is ideal for cutting wires [orthodonticpliers]

ECCO - 3757171 Hook Crimping Plier

US\$ 23.00

ECCO-Plier Hook Crimping Plier - Designed for placement and securing of compatible archwire hooks and power hooks - Angled beak allows for precise placement of hook arch wires [orthodonticpliers][orthodonticpliers]

ECCO - 3757172 Hook Crimping Plier -Flat

US\$ 23.00

ECCO-Plier Hook Crimping Plier - Flat Designed for placement and securing of compatible archwire hooks and power hooks - Angled beak allows for precise placement of hook arch wires [orthodonticpliers]

ECCO -3757115 How Straight Plier

US\$ 23.00

ECCO-Plier - How Straight Plier [orthodonticpliers]

ECCO -3757159 Jarabak Plier

US\$ 23.00

ECCO-Plier - Jarabak Plier Excellent for bending and forming loops in light wires up to .020in - 3 sets of precision grooves assure a firm grip - [orthodonticpliers]

ECCO - 3757148 Lab Hard Wire Cutters

US\$ 23.00

ECCO-Plier - Lab Hard Wire Cutters - Chrome The extra strong edges make it one of the most popular hard wire cutters - Designed to cut all sizes and types of arch wires - it features a cutting angle for easy introral access - Cuts arch wires up to .022x .028in [orthodonticpliers]

ECCO - 3757119 Lingual Arch Plier

US\$ 23.00

ECCO-Plier - Lingual Arch Plier Used to form and double and triple back bends in 0.76 or 0.91 wire for insertion in lingual sheaths [orthodonticpliers]

ECCO - 3757165 Loop Form & Closing Plier

US\$ 23.00

ECCO-Plier - Loop Form & Closing Plier Precision loop forming with four step tip 3-4-5 and firm - Excellent for wires up to .022in - [orthodonticpliers]

ECCO - 3757167 Loop Tie Back Plier

US\$ 23.00

ECCO-Plier - Loop Tie Back Plier Four step plier automatically forms loops on wire up to .020in with one motion - Closing loops are easily made to desired height - [orthodonticpliers]

ECCO - 3757145 Mini Ligature Cutter -Straight

US\$ 23.00

ECCO-Plier - Mini Ligature Cutter -Straight Smaller head and handles give easy access to bracket areas - Sharp diamond hooded edges are effective for all soft wires - pins and elastics up to 0.41mm [orthodonticpliers]

ECCO - 3757149 Mini Pin Ligature Cutter

US\$ 23.00

ECCO-Plier - Mini Pin Stand Ligature Cutter Plier - Fine Tips for easy access for hard to reach areas - Cuts wire ligatures pins and elastics - Mex cutting capacity soft wire up to .015in [orthodonticpliers]

ECCO - 3757150 Mini Pin Ligature Cutter

US\$ 23.00

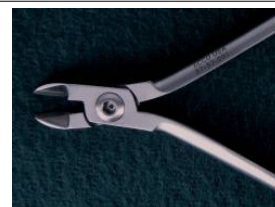

ECCO-Plier - Miucro Mini Pin Stand Ligature Cutter Plier - Extra Fine Tips for easy access for hard to reach areas - Cuts wire ligatures pins and elastics - Mex cutting capacity soft wire up to .015in [orthodonticpliers]

ECCO - 3757091 Mini Pin Stand Ligature Cutter

US\$ 34.00

ECCO-Plier - Mini Pin Stand Ligature Cutter Plier [orthodonticpliers]

ECCO - 3757175 Nitanium Expander

US\$ 23.00

ECCO-Plier - Nitanium Expander adjusting plier specifically designed for making precision adjustments to the nitanium palatal expander and molar totator - The grooved beaks assume a stong non slip hold during adjustment [orthodonticpliers]

ECCO - 3757162 Occulist Plier

US\$ 23.00

ECCO-Plier Occulist Plier Round and concave beaks bend round or retangular wire with a firm grip that will not mick wire - Bends wires up to .020in [orthodonticpliers]

ECCO - 103849 Ortho Plier Kit w/Case - 8pk US\$ 203.00

ECCO-Orthodontic Plier Kit with leather case - 8pk - includes: Jarabak Plier [#3757159] - Distal end cutter [#3757093] - Flat nose plier [#3757138] - Standard Ligature Cutter [#3757089] - Contouring Plier [#3757061] - Crown Remover [#3757105] -Direct band remover [#3757130] -Hook Crimping Plier [#3757171] - **ECCO Orthodontic Plier Kit With Leather Case**

- Red cloth included to cover pliers when closing case so the stay protected

- Zipper closure

- 8 Pliers included:

- Jarabak Plier - #3757159
- Distal end cutter - #3757093
- Flat nose plier - #3757138
- Standard ligature cutter - #3757061
- Contouring plier - #3757061
- Crown remover - #3757105
- Direct band remover - #3757130
- Hook crimping plier - #3757171

Technical specifications

- Shipping weight: 3lb
- Dimensions when open: 12x11in

ECCO - 103839 Ortho Plier Kit w/Stand - 8pk

US\$ 203.00

ECCO ORTHODONTIC PLIER KIT WITH STAND

*8 PLIERS

*Jarabak Plier

*Distal End Cutter

*Flat Nose Plier

*Standard Ligature Cutter

*Contouring Plier

*Crown Remover

*Direct Band Remover

*Hook Crimping Plier

*Stand included - 5 1/8 x 8 1/2 x 4in

*Holds up to 16 pliers

ECCO - 3757066 Peeso 13cm- Collar

US\$ 23.00

ECCO-Plier - Peeso 13cm - Collar Plier - [orthodonticpliers]

ECCO - 3757097 Pin and Ligature Cutter

US\$ 34.00

ECCO-Plier - Pin and Ligature Cutter Plier [orthodonticpliers]

ECCO - 103840 Plier Rack 5-1/8x8-1/2x4in

US\$ 19.00

Straight Plier Rack 5-1/8x8-1/2x4in -Black - Rack with straight rods to hold pliers with great stability

ECCO - 3757071 Pin Roughening 16cm

US\$ 34.00

ECCO-Plier - Pin Roughening 16cm - Cutting and Bending Pliers - [orthodonticpliers]

ECCO - 3757129 Post Band Remover w/ Short Pad

US\$ 23.00

ECCO-Plier - Posterior Band Remover with short pad [orthodonticpliers]

ECCO - 3757059 Reynolds 13cm- Bending

US\$ 23.00

ECCO-Plier - Reynolds 13cm - Wire Bending Plier - [orthodonticpliers]

ECCO - 3757160 Ribbon Arch Plier

US\$ 23.00

ECCO-Plier Ribbon Arch Plier Ideal for forming square or rectangular archwires - ends wires up to .022x.028in [orthodonticpliers]

ECCO - 3757134 Round & Concave Plier

US\$ 23.00

ECCO-Plier - Round and Concave Plier For loop forming and bending of thin round end wdgewise wires up to 0.51mm [orthodonticpliers]

ECCO -3757137 Round Nose Bending Plier

US\$ 23.00

ECCO-Plier - Round Nose Bending Plier wire up to 0.51mm [orthodonticpliers]

ECCO - 3757073 Schwatzr 14cm Arch/Spring Bend

US\$ 23.00

ECCO-Plier - Schwatzr 14cm Arch and Spring Bending Pliers - [orthodonticpliers]

ECCO - 3757089 Standard Ligature Cutter

US\$ 34.00

ECCO-Plier - Standard Ligature Cutter Plier [orthodonticpliers]

ECCO - 3757169 Torquing Plier Set w/ Key

US\$ 23.00

ECCO-Plier - Torquing Plier Set w/ Key Specially designed to place torquing bend into the small sections of archwires : such as a bend for a single tooth - without distorting adjacent sections of the wire - Two piece set consists of one torquing plier and one .018 - .022 key [orthodonticpliers]

ECCO - 3757141 Tweed Arch Bend Plier-Short

US\$ 23.00

ECCO-Plier - Tweed Arch Bending Plier - Short Plier with short blades 10mm - designed for handling square or rectangular wires - [orthodonticpliers]

ECCO - 3757164 Tweed Loop Form Plier - Concav

US\$ 23.00

ECCO-Plier - Tweed Loop Forming Plier - Concave Beak Makes precise omega loops It has three forming sections .045 - .0800 - .075in Etched tip surfaces prevents slippage [orthodonticpliers]

ECCO - 3757125 Tweed Loop Form Plier - Omega

US\$ 23.00

ECCO-Plier - Tweed Loop Forming Plier - Omega For making perfect omega loops in square or rectangular wires up to 0.56x0.71mm [orthodonticpliers]

ECCO - 3757101 Tweed Loop Form Plier - Point

US\$ 34.00

ECCO-Plier - Tweed Loop Forming Plier - Pointed [orthodonticpliers]

ECCO - 3757124 Tweed Loop Form Plier - Single

US\$ 23.00

ECCO-Plier - Tweed Loop Forming Plier - Single The replaceable cylindrical back has only one diameter sections of 1.52mm [orthodonticpliers]

ECCO - 3757121 Tweed Loop Form Plier -Square

US\$ 23.00

ECCO-Plier - Tweed Loop Forming Plier - Square For making loops in square or rectangular wires ip to 0.56x0.71mm - The replacement beak has three diameter sections: 1.14mm - 1.52mm - 1.90mm [orthodonticpliers]

ECCO - 3757061 USA Model 13.5cm- Contouring

US\$ 23.00

ECCO-Plier - USA Model 13.5cm - Contouring Plier - [orthodonticpliers]

ECCO - 3757090 V Bend Stop Plier - Flat Tip

US\$ 34.00

ECCO-Plier - V Bend Stop Plier - Flat Tip [orthodonticpliers]

ECCO - 3757166 V Bend Stop Plier - Sharp Tip

US\$ 23.00

ECCO-Plier - V Bend Stop Plier - Sharp Tip Special design makes the 1mm V - Bends to shorten archwires or provide a positive stop - Excellent for placing stops in stainless wires - For round or rectangular wires up to .025in [orthodonticpliers]

ECCO - 3757087 V Bend Stop Plier -Pointed Tip

US\$ 23.00

ECCO-Plier - V Bend Stop Plier Pointed Tip [orthodonticpliers]

ECCO - 3757079 Wire Plier 13cm

US\$ 34.00

ECCO-Plier - Wire Plier 13cm [orthodonticpliers]

ECCO - 3757056 Young 13cm- Bending

US\$ 23.00

ECCO-Plier - Young 13cm - Wire Bending Plier - [orthodonticpliers]

ECCO - 103861 Silver Solder .015in 5DWT

US\$ 10.45

ECCO-Silver Solder .015in 5DWT -Office Size 5 Penny weights [DWT] -The finest silver solder available and the best price - Dead soft for easy handling and cadmium free for safety - Low dofferential between melting and flow points provides excellent control

ECCO - 103862 Silver Solder .025in 5DWT

US\$ 10.45

ECCO-Silver Solder .025in 5DWT -Office Size 5 Penny weights [DWT] -The finest silver solder available and the best price - Dead soft for easy handling and cadmium free for safety - Low dofferential between melting and flow points provides excellent control

ECCO - 103863 Silver Solder .031in 5DWT

US\$ 10.45

ECCO-Silver Solder .031in 5DWT -Office Size 5 Penny weights [DWT] -The finest silver solder available and the best price - Dead soft for easy handling and cadmium free for safety - Low dofferential between melting and flow points provides excellent control

ECCO - 103890 Purge All for oven 1/2lb

US\$ 23.78

Purge All
 Decontaminator for Porcelain Furnaces
 - Enough for 25 cleanings - 2 stage cleaning 5 min Purge All, 5 min Purge All Plus. This product is the PURGE ALL.
 - For PFM Frameworks - Our engineers developed Purge All to act as a oxide and contamination sponge targeting specific ions found in delay alloys.
 - Purge All absorbs and eliminates furnace contaminant's more effectively than carbon.
 - When used on a regular basis Purge All eliminates porcelain discoloration, extends muffle and thermocouple life and maintains thermocoupe accuracy.

ECCO - 103892 Purge All Kit for oven 2x1/2lb

US\$ 42.00

Purge All Plus/Purge All
 Decontaminator for Porcelain Furnaces
 - Enough for 25 cleanings - 2 stage cleaning 5 min Purge All, 5 min Purge All Plus. This product is the PURGE ALL PLUS . Complete Kit
 - For PFM Frameworks - Their engineers developed Purge All to act as a oxide and contaminationsponge targeting specific ions found in delay alloys.
 - Purge All absorbs and eliminates furnace contaminant's more effectively than carbon.- When used on a regular basis Purge All eliminates porcelain discoloration, extends muffle and thermocouple life and maintains thermocoupe accuracy.

ECCO - 103889 Purge All Plus for oven 1/2lb

US\$ 23.78

Purge All Plus
 Decontaminator for Porcelain Furnaces
 - Enough for 25 cleanings - 2 stage cleaning 5 min Purge All, 5 min Purge All Plus. This product is the PURGE ALL PLUS .
 - For PFM Frameworks - Their engineers developed Purge All to act as a oxide and contaminationsponge targeting specific ions found in delay alloys.
 - Purge All absorbs and eliminates furnace contaminant's more effectively than carbon.
 - When used on a regular basis Purge All eliminates porcelain discoloration, extends muffle and thermocouple life and maintains thermocoupe accuracy.

US\$ 95.00

Specialty Wires Calibration Kit- Silver (100 Pieces) Calibracion Temperatura

ECCO - 103891 Zirconia Decontam ZR 1/2 lb

US\$ 52.61

Purge ZR
 Zirconia Decontaminator for your porcelain furnace
 - Purge All ZR is a unique double activated ion and oxide absorbing material especially manufactured to eliminate all contaminates that can cause discoloration and porcelain delamination in Zirconia copings.
 - Low levels of radioactive materials found in Zirconium can build up inside a muffle and cause color problems.
 - These radioactive isotopes are absorbed completely out of the furnace.
 - Purge All ZR will extend muffle/thermocouple life and maintain thermocoupe accuracy.

NEY CENTURION QEX - 110V

The Qex is the most advanced unit in the popular Centurion line of vacuum porcelain furnaces. With the added features of alphanumeric program names, program memory cards and security locking, the Centurion Qex provides the flexibility to grow with your business. At the heart of the Qex is a fast-cooling quartz spiral muffle that ensures superior heat distribution and extended life.

Features:

- Numeric program names
- Graphic display
- Absolute vacuum control
- With original vacuum pump included (oilless)

- Continuous step technology
- Advanced temperature control
- Programmable muffle position and speed
- Large, stable work platform (10cm/4")
- Quartz spiral muffle
- Closed muffle drying/cooling
- 100 Conventional porcelain programs
- Memory card for program backup, and parameter loading
- User selectable listing of only desired programs
- Programmable idle time for closing muffle
- Programming mode for experimental programs
- InCer card for sintering ceramics (InCeram)
- Optional Security code for program locking
- Multilingual (English, Spanish and Italian)
- Auto purge
- "Energy Saver" feature
- Diagnostics for easy troubleshooting
- Auto idle mode
- Power failure and runaway protection
- Internal surge/spike protection
- oC to oF conversion
- Programmable night mode temperature
- Full Two-year Warranty
- Made in USA
- Graphic LCD

**EDG- 200185 ALUMINI SINTER PRESS
110v-220v**

US\$ 4,205.00

EDG Sinter Press - w/o vacuum pump

Triple function : Regular Porcelain - Pressable porcelain and Sinterization of alumina and Alumina/zirconia composites

110volts / 220 volts switchable

Quartz muffle with thermal insulation ceramic mat molded through low thermal mass vacuum, which insures perfect temperature homogeneity. The exclusive system S.A.L.V Sistema de aquecimento de longa vida (long life heating system)

Muffle forced ventilation for the sintering/infiltration process which eliminates stains and minimizes fissures. 99 programs: 79 for ceramic and 20 for sintering/infiltration. Management by microprocessing.

. Easy operation and visualization of the burning parameters.

Ambient working temperature at 1,100C for ceramic and at 1,200C for sintering/infiltration.

Maximum temperature limiter at 1,200C. Linear decimal heating speed from 0.1 to 70.0C/min.

Thyristored power control

Ceramic burn time from 0 to 30 minutes. Sintering/infiltration time from 0 to 9 hours 59 minutes.

Decreasing time visualization. Vacuum time from 0 to 30 minutes with decreasing visualization.

Automatic or manual (which can be activated at any stage of the process) vacuum operation. Programmable and independent ascending and descending elevator times.

Safety systems protect the equipment from operation mistakes or defects.

Flashing and beeping signs of all process steps. To avoid ambience heating and save energy, an alarm will sound after 5 minutes if the equipment is not being operated the muffle will be partially closed automatically.

Night Mode: after 2 hours without any operation, the muffle is closed and the temperature is kept at 100C.

Programmable quick cooling.

Operation time totalizer.

Low cost muffle replacing system.

Elevator with bottom entrance perfectly balanced. Electronic system forced ventilation keeps the components safe.

ARGON SYSTEM, allows the cleaning and helps with ceramic burn emphasizing its colors, enhancing the translucence and opalescence. Serial communication for maintenance and system checking. Temperature safety devices, temp. par, vacuum, elevator, power, muffle with S.A.L.V system, piston and compressed air system.

Digital panel in liquid crystal with 4 lines by 20 columns on a blue background. with BACKLIGHT. Blue background-

Sensitive membrane with sound recognition of the operator's touch.

Specification:- State-of-the-art micro processed control MOTOROLA.- SMD electronic circuit cards- Liquid crystal display Power = 1800 Watts.- Power supply: 110 or 220 volts. 50/60 Hz. Under request- Fuses: 20 amperes to 110 volts, 15 amperes to 220 volts.- RS-232 communication for technical assistance.- Alphanumeric keyboard with 39 programs and monitoring keys.- Maximum operation temperature: 1200C- Nominal working pressure 60 Lbf / in2 (Piston)- Nominal vacuum work 27 in Hg. / mm Hg. Shipping information : - Gross weight.....28.5Kg
Made in Brasil - Us Warranty 2 years including the muffle

NEY - 9494300 Cerampress Q50 Porc Furn 110v

US\$ 4,100.00

NEY Cerampress Q50 - 110volts - 50 programs - Quartz Spiral - w/vacuum pump included - [Press porcelain furnace -] - Made in USA - 2 years full warranty - Porcelain Furnace **CERAMPRESS Q-50**
The value leader for pressing furnaces, the CeramPress Q50 offers superior, cost-effective performance for pressable ceramic applications.

Features

- Single Function Furnace
- Porcelain Pressing
- Usable With All Pressable Ceramics
- 1200C Maximum Temperature
- With original Vacuum Pump included (Oilless)
- 50-Program Memory
- Quartz Spiral Muffle
- Enhanced Temperature Stability
- Designed for Dedicated Pressing
- Suitable for High and Low Temperature Pressing
- Fast Cooling
- Automatic Open at Cycle Completion
- Auto Calibration, Auto Purge, Auto Night Mode
- Internal Surge/Spike Protection
- C to F Conversion
- 100 or 200 Gram Ring Capacity

CERAMPRESS™ Q50 PRESSING FURNACE

Features:

- 50 program memory
- Quartz spiral muffle
- Enhanced temperature stability
- Designed for dedicated pressing
- Suitable for high and low temperature pressing
- Fast cooling
- Automatic open at cycle completion
- Night mode
- Auto Calibration, auto purge, auto night mode
- Internal surge/spike protection
- C to F conversion
- 100/200 gram capacity

Product Code Number: 100-120 Vol. 9494300, 220 Vol. 9494301

Specifications	Electrical	Dimensions
Temperature: 1200°C (max) (2160°F) (max)	Power/Current: 1800W / 13.6A	Height: 18.5" (46.7cm)
Max Temperature: 1200°C (2160°F)	Control: On/Off	Width: 11.75" (29.8cm)
Max Ramp: 100°C/min	Control: On/Off	Depth: 11.75" (29.8cm)
Max Ramp: 100°C/min	Control: On/Off	Weight: 28.5kg (62.8lb)
Max Ramp: 100°C/min	Control: On/Off	Capacity: 100g or 200g

NEY - 9494310 Cerampress QEX Porc Furn 110v

US\$ 4,599.00

NEY Cerampress QEX - 110volts - 100 programs - Quartz Spiral - w/vacuum pump included - [Press porcelain furnace -] - Made in USA - 2 years full warranty - Porcelain Furnace [q100-q-100]Our best full-featured all-ceramic pressing furnace. If you are starting or expanding an all-ceramic department, CeramPress Qex should be part of your system. CeramPress Qex is engineered for quality and performance, and is versatile enough to be compatible with all pressable ceramics and conventional porcelains.

Features

- Usable with all pressable ceramics
- Full porcelain firing capabilities
- Alphanumeric program names
- With original Vacuum Pump included (Oilless)
- Memory card for program backup and parameter loading
- Security code for program locking
- Quartz spiral muffle
- Fast cooling
- Automatic open at cycle completion
- Continuous or cycling vacuum pump operation
- Bright, easy-to-read graphic display
- Enhanced temperature stability
- Program override 6 User-defined pressing programs 100 Conventional porcelain programs
- Programmable idle time for closing muffle
- Programming mode for experimental programs
- InCer card for sintering ceramics (InCeram)*
- Optional Multilingual (English, Spanish and Italian)

**JELRUS- 100514 Jelrus Vip Univers
Furn 110V**

US\$ 3,474.00

- The VIP Universal multi-purpose porcelain furnace exceeds the highest standards for current and future applications.
- VIP Universal has the ability to optimize the appearance of porcelain fused to metal and All-Ceramic type restorations by providing superior levels of esthetics.
- With original Vacuum Pump included (Oilless).
- A large widescreen display is featured for viewing all program data, information and progress from start through finish on any of the 100 easy to use free-style open programs.
- The VIP Universal is specifically engineered to meet the individual needs of today's dental laboratory professional and is designed for universal use with all low and high fusing porcelains as well as very high temperature ceramics.
- Electrical: 120 V, 13.7 A, 1644 W, 50/60 Hz PN A4500100 V, 18.0 A, 1800 W, 50/60 Hz
- Dimensions: 15" W x 16" D x 22.63" H 38.10 cm W x 40.64 cm D x 57.48 cm
- Weight: 52 lbs. (23.6 kg) Muffle: 3.95" (10.03 cm) Diameter
- Height 3.25" (8.26 cm)
- Maximum Temperature: 2200F (1204C)

WHIP MIX - 102497 PRO 200 Porc Furn 110V

US\$ 3,561.00

The Pro 200 and the Pro Press 200 Porcelain Furnaces are affordable yet intelligently designed with cutting edge technology. They have advanced cycles for e.max, In Ceram, Wol-Ceram, Captek, sintered alloys and advanced porcelain products. All Pro Series Porcelain Furnaces come standard with a Vacuum Pump and a 3-Year Warranty or 3,750 muffle hours on unit (US & Canada only).

Features:

- 200 Program Memory Expanded memory and faster logic board allows the user to use a multitude of porcelains
- Quick-Cool Jet cools the muffle twice as fast
- With original Vacuum Pump included (Oilless)
- Pro 200 Master Suite New graph-based application that enables user to create, modify, print and transfer programs to furnaces straight from their PC.
- USB Port transfer programs and upgrades with a standard Flash Drive, (1) 1GB included. * Larger Easy Read LCD Screen provides four lines of 20 characters
- Membrane Keys for keypad durability and less wear
- Detent Knob with Built-In Select Switch allows for faster and more convenient programming
- Improved Muffle More insulation than previous Pro Series to save energy and costs. Rated to 2200F
- Upgraded Thermocouple for unsurpassed accuracy
- Pro Press 200 can accommodate 100, 200, and 300 gram rings for more flexibility

WHIP MIX - 102496 PRO-PRESS 200 Porc Furn 110V

JELRUS - 102503 VIP X- PRESS Univer 110vol

US\$ 4,170.00

Presenting the combination porcelain/pressable furnace.

- Also Available in 220 Volts
- The VIP UniversalX-Press features a triple-axis precision temperature control, large widescreen displays, a frontal pressure gauge for easy viewing, plus an active display of the plunger position during the press cycle.
- The VIP Universal X-Press will accommodate up to 15 grams per 300 gram ring and has broad capability to press to aluminum oxide, zirconium and metal.
- The rapid entry transport system keeps pressing rings hot.
- The VIP Universal XPress is specifically engineered for high temperature ceramics, and all low and high fusing porcelains.

Characteristics

- High performance muffle.
- With original Vacuum Pump included (Oilless)
- Extraordinary, beautiful porcelain.
- 100 easy-to-use and see programs: 20 open pressable and 80 open free-style.
- Large widescreen visual display shows program name, all program parameters, individual settings, program progress and actual muffle conditions (program number, temperature, vacuum, time).
- Press position, active display: plunger position during press cycle (inches or centimeters).
- Frontal easy view pressure display 0-100 PSI (0-6.9 BARs).
- 5.0 Multi-layered high temperature muffle Crystalline Quartz Technology
- Highest Grade crystalline quartz
- Fused Quartz
- Alumina Oxide
- Fibrous Alumina

Ovens Porcelain

Separated Ovens for Flexibles

EMBRACE™ WetBond™
Pit & Fissure Sealant

*Light Cure • Fluoride
Releasing • Radiopaque*

- Contains No Bisphenol A and No Bis-GMA
- Wet-Bonding - Moisture tolerant resin chemistry
- Tooth Integrating - Seals against microleakage
- Margin-free - No chipping, pitting, or staining.

- The automatic laser pinhole drilling unit guarantees the highest drilling precision and enables a relaxed working position either sitting or standing.
 - Easy, resistance-free drilling with the extremely powerful motor at 16.000 rpm is guaranteed with even super-hard plasters. The result: The diameter is smaller, offers a more precise fit and is significantly straighter.
 - Ergonomics supports precision workThe technician can comfortably hold the model in the desired position and drill without wavering, especially as the drilling itself is not strenuous.
 - With the aid of the precision laser guidance point, the technician can also determine the best position for the basal drillhole.
- AVAILABLE IN 110v AND 220v

Polishing and Finishing Flannels

KEYSTONE-034-1180065 Flannel Buff 3in x 20Ply

US\$ 4.25

- Flannel Bufs - 3inch - 20 Ply - High quality flannel - virtually lint free -used w/ fine rouge to produce a final high luster on gold or acrylic.
- May also be used as a wipe off wheel w/out composition - sold indiv - franela pulido
- Rueda Keystone Abrasives - Keystone Dental Tools - Us Dental Depot is specialized business in Dental lab equipment & Dental Porcelain Furnaces

KEYSTONE-034-1180075 Flannel Buff 4in x 20Ply

US\$ 3.36

- Flannel Bufs - 4inch - 20 Ply - High quality flannel - virtually lint free -used w/ fine rouge to produce a final high luster on gold or acrylic
- May also be used as a wipe off wheel w/out composition - sold indiv - franela pulido.
- Rueda [Keystone Abrasives - Keystone Dental Tools][Us Dental Depot is specialized business in Dental lab equipment & Dental Porcelain Furnaces]

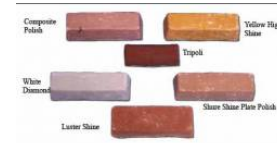

Polishing and Finishing Polish Compounds & bars

KEYSTONE-034-1660100 Composite Polish 1Lb Bar

US\$ 9.90

Composite Polish - 1lb bar- Polishing Compound - [K# 1660100] Produces a quick high shine on all plastic restorations

All equipments are also available
in 220 volt. in our website...

WWW.USDENTALDEPOT.COM

KEYSTONE-034-1660040 White Diamond Compound 13oz.

US\$ 4.78

White Diamond Compound - 13 oz. Bar - Polishing Compound [K# 1660040] Clean - Dry - Fast - pre-polish on plastics

Polishing and Finishing Diamond Pastes

DIAMOND PASTES (Pulpdent)

For those seeking the absolutely sharpest edge, Diamond Paste is the way to go when "good enough" isn't good enough for you. With grits as fine as 1 micron, it is possible to polish an edge so fine that you'll need a microscope to see anything but perfection.

Liquids for Porcelain

We carry the complete

line of products.

LIQUIDS (Ceratec)

- **Modeling Liquid:** a special liquid for use with dentine and incisal porcelains to enhance the building and modeling of the ceramic as well as improving the density of the fired restoration.
- **Stain and Glaze Medium:** a special liquid to be used only for the mixing of glaze and stain powders.
- **Shoulder SET:** this liquid is used in the mixing of shoulder powders allowing the shoulder to harden on the die facilitating removal without affecting unsupported porcelain.
- **Shoulder SEP:** a separating medium used over the stone model to prevent adherence of the porcelain to the stone.
- **Opaque Liquid:** a special liquid to be used in the mixing of Opaque powders. When used, this liquid will provide an opaque powder mix that is creamier and easier to apply the metal. Also used for moistening the brush for enhancing the application of paste opaques porcelains.

ALUMINA COPINS (Alglass)

Alumina sintered at 1700C is one of the most resistant materials known nowadays. However, the high temperature and thermal contraction inherent to the process make the use of this pure material impracticable for dental structure making.

- Materials usually called glasses have low fusing point but, on the other hand, have small mechanical resistance.

- The infiltrated glass in a pre-sintered alumina matrix results in a composite that fulfill the mechanical requirements and biocompatibility in a "Metal-Free" technique for structures and coping making.

- Material and Chemical Engineers Researchers from Brazilian Universities together with specialists in DenProsthesis and Celmat developed a family of products that uses this technology, making this idea available to market at low cost, high quality and reliability.

- The ALGLASS means alumina and together with GLASS adds its potential to each other. It was still required to have equipments compatible with the Brazilian reality to enable the use of state-of-the-art technology by the most number of Dental prosthesis technicians.

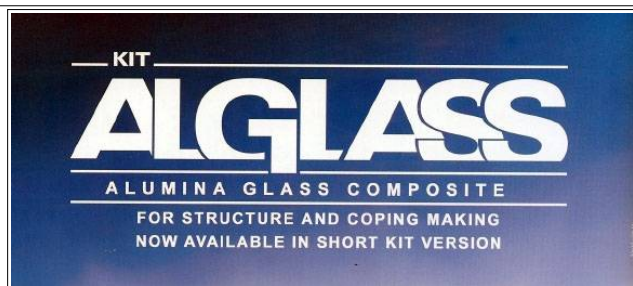

Sinterization temperature : 1120 C

Infiltration Temperature : 1100 C

Can be built direct on the working model !!

Infiltration Glass is compatible with Inceram techniques

HF ENAMEL (Ceratec)

Enamel or Incisal

Enamel are slightly less translucent than Incisals (more opaceous). So, for that technicians that are used to build the porcelain covering their dentine powder, with a complete layer of Incisals powder, then the one to be used by them should be INCISALS.

In the other hand , the technician is used to place Enamel powder just on the first third of the crown. Then the proper powder to be used should be ENAMELS.

In the case, you are using ENAMELS, and you see your porcelain, appearing a little bit lacking of color or slightly turned to grey, is not because of the color of the porcelain.

It is just the Enamel layer, that went too high over the second and third third of the preparation/ crown / dentine powder.

Bottom line, more translucent is the Incisal powder , more opaceous is the Enamel powder .
For people that uses less Enamel, then the powder is Enamel.
For people that covers the crown with Incisal, then the powder is Incisal.

Porcelains

Ceratec Kits

PORCELAIN KITS (Ceratec)

Ceratec is easy to use for the ceramist with little experience but has all of the properties and porcelains necessary for the expert ceramist. Designed with one goal in mind: to easily replicate the beauty and vitality of natural teeth. The extremely stable CTE provides compatibility with a broad range of alloys (14.0 - 14.8 at 500C) and permits multiple firings while maintaining form and shade integrity. Achieve accurate shades right out of the bottle with only the basic powders. Ceratec is offered in A1-D4 shades in addition to A0 & B0 bleached shades. Maintaining shade even at varied thicknesses becomes simple with the choice of Opacious Dentine, Chroma Dentine and Dentine

LF INCISALS (Ceratec)

Enamel or Incisal

Enamel are slightly less translucent than Incisals (more opaceous).

So, for that technicians that are used to build the porcelain covering their dentine powder, with a complete layer of Incisals powder, then the one to be used by them should be INCISALS.

In the other hand , the technician is used to place Enamel powder just on the first third of the crown. Then the proper powder to be used should be ENAMELS.

In the case, you are using ENAMELS, and you see your fired porcelain, appearing a little bit lacking of color or slightly turned to grey, is not because of the color of the porcelain.

It is just the Enamel layer, that went too high over the second and third third of the preparation/ crown / dentine powder.

Bottom line, more translucent is the Incisal powder , more opaceous is the Enamel powder .

For people that uses less Enamel, then the powder is Enamel.

For people that covers the crown with Incisal, then the powder is Incisal.

Porcelains

Elite 'One Build' Porcelain

"ONE BUILD" PORCELAIN (Elite)

Elite One Build by Vision USA

This new porcelain system is based on a single powder build-up whereby the dentine and incisal are pre-mixed in a special proportion in order to be able to achieve all the Vita shades including AO and BO with just 11 premixed bottles.

Type: High Fusion

Grain : Medium grain porcelain, same as Solera porcelain.

Cte (Coefficient Thermal expansion) between 13 ? 15.2

Alloys : which warranties full usability with the most used ceramic alloys in the market, containing Berilium or Berilium free as well. Some of the compatible alloys : Rexilium 3 , Ecco, Cerakast, Super-1, Super 3, Cerakast-2, ExactoBond & ExactoBond-2, Wiron 99, just to mention some of them.

Benefits : to this kit are increased production, minimizing porcelain inventory and enhanced esthetics by eliminating the demarcation line between body and incisal. Simply follow the firing instructions enclosed and select the proper bottle for your specific shade requirement. The ease of technique and accurate shade matching will become apparent with your first case.

Principle : Based on a strong chroma on the opque and a high translucent body mass.

Mixing Powders with other brands : Yes, as the CTE has a wide range, there is no indications against using other brand powders, either to add to the mass, or the correct after baking. Which is not warranted is the color resulting of the mix. |

Corrections : Corrections can be made either with the same Elite powders like any other porcelain, or with Vision Low, (same as used for Vision Press) .Also corrections can be made with ANY other porcelain.

Available Powder and Colors : Dentine/Incisals : 11 bottles Paste Opaques : A0 to D4 Clear (High translucency)

For any technical quersytion , call free to : 1 305 826 0007 Mr/ Sr Nary (English/Spanish)

We carry the complete

line of products.

Visit www.usdentaldepot.com

PORCELAIN (Solera)

A German Fine Grain High Fusion Porcelain
Compatible in temperature and CTGE with Ceramco 3,
Ceratec and Synspar

CTE between 13 - 15.2 what makes DSolera compatible with
most alloys in the market

Just to mention some of the most used alloys, Solera can be
fired over : Super-1 Super-3, Cerakast, Exacto alloys,
Rexilium 3 , Wiron 99, PFM Chrome cobalts, and can also be
baked on alloys with up to 50% of Silver.

Translucency value for Dentin Body , is close to 55% . Being
slightly more opaque than Ceramco 3 and Ceratec, makes it
easier to cover thin areas or areas of difficult coverage, with
no need of using Opaque Dentine.

Test kist are also available

Porcelains
Vision Classic

CLASSIC PORCELAIN (Vision)

Introduced at the 1995 IDS in Cologne, Germany, Vision Classic has established itself as an easy touse ceramic with consistant shade accuracy.

As a clinically proven ceramic.

- Compatible with alloys having a CTE 15.2?m/mK (25 - 600°C) perfectly compatible with mayor used alloys like Super-1 - Rex 3 - Verabond etc
- Non greening
- V shades A1 - D4
- No slumping during build up
- Less shrinkage during firing

Porcelains

Vision Zirkon porcelain

ZIRKON (Vision)

Innovations bring new materials! With its high strength and delicate frameworks, zirconium oxide is enjoying increased popularity.

Wohlwends Vision Zirkon provides a new standard for shade accuracy.

Its exact CTE settings and excellent adhesion result in optimum performance on different zirconium oxide frameworks.

This protects restorations from cracks, checks and fractures.

- Shade accuracy
- Superb natural esthetics
- Easy handling
- Great stacking / carving abilities
- Outstanding adhesion
- Exact CTE settings
- Excellent bonding strength

Prophy products

PROPHY PRODUCTS (All Brands)

PROPHY ANGLES

Dentists and hygienists all across the country tell us that ECCO-PA performs closer to a metal prophy angle than any disposable prophy angle they have ever used. It runs smoothly, quietly and gets through the prophy every time. ECCO-PA fits most handpieces and is engineered for peak performance.

PROPHY BRUSHES

- For polishing and removal of heavy stains.
 - Available standard or pointed in popular mounting styles, and in soft or stiff bristle horse hair and nylon
 - Made of fine bristle and assembled to prevent the possibility of pulling out bristles
 - Supplied in Screw Type, Right Angle or Straight Handpiece
- When you need a brush, choose the best. The different points reaches into recesses that a normal brush can't.
Nylon bristles are firmly attached to durable chrome finish bases.

PROPHY CUPS

Due to increased allergies from latex products, We have been developed a non-latex prophy cup to better protect staff and patients. These new cups clean, polish, and perform like natural rubber cups. All styles are now available in the new non-latex material.

Reliners Soft

THERMO-ADJUSTABLE RELINES (Versacryl)

- This unique product has been developed to create thermo-adjustable relines
- It is a heat sensitive liner that softens in warm water between 120-205 degrees fahrenheit
- At body temperature the versacryl has an extremely comfortable cushiony effect that yields to pressure and actually creates better suction than conventional soft liners
- Versacryl is a cross-linked acrylic denture material guaranteed to create a chemical bond with all other denture acrylics
- Available in heat cure and self cure
- No special equipment is needed to process

CERAMISTE (SHOFU)

CERAMISTE (Shofu)

Made specifically for polishing porcelain and enamel, Ceramisté polishers provide the best in silicone technology. Available in 3 different grits, Standard polishers (no band) are for prepolishing, Ultra (yellow band) for polishing and Ultra II (white band) for superpolishing.

Ceramisté Soft is an advanced combination of abrasive and polishing technology created to meet the challenge of the fragile handling characteristics of porcelain veneers, inlays and onlays chairside or in the laboratory.

Ceramisté	Shape	Bullet	Cup	Knife	Wheel	Midi-Point	KN7	PC2	WH6	Unmtd. Whl.

Cera. Soft										
PA green banded	HP							0564		0595
PB blue banded	HP							0563	0565	0596

Benefits:

- Ceramisté Soft Polishers work well using light pressure (below 200 g) which minimizes heat build-up.
- For smoothing rough surfaces (after gross reduction with Shofu Shofu FG Points, Dura-Green Stones or Chipless Wheels) use the Ceramisté Soft PA (green band).
- After using Shofu T&F Diamonds or Dura-White Stones, use Ceramisté Soft PB (blue band).
- For a highly polished surface, use either PA or PB with an exceptionally light touch.
- Recommended for finishing and polishing porcelain surfaces prior to glazing to permit lower temperature firing.

Rubber Polishers

Acrylic & Flex. Polishers

CFS - 220106 Brown Rubber Wheels 100pk

US\$ 15.52

CFS Brown Rubber Wheels - 100pk - made from a soft material used to rubberize the entire partial before polishing - [C# 220106]

#220-106

These wheels are made from a soft material used to rubberize the entire partial before polishing. 100 per box.

Rubber Polishers

Clasp polisher (Rubber)

ACRYPOINT (SHOFU)

ACRYPOINT - Acrylic polishers

Incorporating the latest polishing technology from SHOFU, AcryPoints are designed for adjusting and polishing to a high luster all acrylic appliances, either in the laboratory or chairside

ISO No.	Shape	BP 1	PC 2

RENFERT-023-2960-1000 Vario-Basic- W/O Tanks- 110

US\$ 1,948.00

Vo

This allround blasting unit is a combined recyclable blaster and fine sandblasting unit. Its compact construction and multipurpose function is ideal for medium-sized and small labs. This economical unit can carry out all the usual blasting tasks required within dental technology.

In many laboratories both precious metal and CrCo are regularly sandblasted. It is often not economical, however, for small or medium-sized laboratories to invest in two units - one for fine and one for rough sandblasting. The amount of usage would not warrant the expenditure. As each technique has its own particular advantages, many laboratories would like to be able to use both techniques. Renfert has succeeded in combining the best of both worlds in the Vario basic, which can be used for all routine sandblasting in the dental laboratory. All the advantages of Renfert microblasting and recycling sandblasting technology are combined in one unit that requires minimum space. Its multifunctionality combined with its compact design and competitive price make the Vario basic an ideal longterm partner for small and medium-sized laboratories.

Surgical Products

Surgical Dressing

PULPDENT - 101441 Periocare Periodontal Dress 2p

US\$ 29.82

Periocare Periodontal Dressing - 2 Paste System

- [P# PC] Highly elastic periodontal dressing which sets resiliently hard and does not chip or fall apart in the mouth - It assists in tissue placement after periodontal surgery and provides durable protection of tissue.

- Does not support the growth of bacteria - When removing from surgical site the site is clean and the Periocare comes off neatly in large pieces.

- After mixing it is ready to pick up with wet fingers 75-90 seconds - 7 minute working time - sets in 15 minutes.

BIOCLER[®] GII
Dentes Acrílicos

Tecnologia & Arte

Dentes para Prótese Total, com **mamelos evidenciados e padronização dimensional**. Confeccionados em resina termo polimerizável, aditivada com crosslink (elemento de ligação cruzada) e pigmentos fluorescentes. Desenvolvido de forma a evidenciar os **mamelos**, obtendo um resultado muito mais natural. Devido a padronização dimensional e a profundidade das fossas oclusais, o BIOCLER GII permite a melhor oclusão.

Technology & Art

Total Prosthesis for Teeth, with **apparent cusps and dimensional standardization**. Elaborated in thermo-polymerizable resin, incremented with crosslink and fluorescent pigments. Developed in such a way to evidence the **cusps**, obtaining a result even more natural. Due to the dimensional standardization and the depth of the occlusal fossae, the BIOCLER GII allows a better occlusion.

PRO-FLEX (Keystone)

An excellent way to make night guards

- vacuum form a dual laminate into the patients cast
This gives a hard bite plate with a built in soft liner
 - Modify the occlusal surface by adding the semi-flexible Pro-flex NFC acrylic resin
 - Final result is a hard bite plate modified to the patients needs that is slightly flexible with a soft inner liner for patient comfort
- Two great products combined into one terrific final appliance

MOUTHGUARDS (Ecco)

ECCO Instant Mouth Guards are Fast, Economical and cast to construct. They are excellent for orthodontic patients. They firmly adapt to teeth and does not lock on wire. They are also easily trimmed with scissor and used for immediate relief of TMJ. One Minute Mouth Guard Technique:

1. Check Tray in Mouth for Fit
2. Drop Tray into Boiling Water for Excatly 14 seconds
3. Quickly Remove Tray and Shake Off Excess Water
4. Have Patient Bite Into Tray

US\$ 269.00

- 5 year parts and labor -[K# 9594470] 16lb
- Vacuum forming is economical unit that is excellent for fabricating most thermoplastic appliances - hexagonal post that keeps sliding frame from rotating (all aluminum construction) uniform heating distribution.
- Made in USA

KEYSTONE-034-7000331 The Machine III- 220 Volt

US\$ 290.00

The Machine-III- 220 Volt vacuum former machine - [vacuum forming] **The Machine III has set the standard by which all vacuum forming machines are measured...**

- Is ideal for every need in the dental office and also the rigorous demands of a commercial laboratory setting.

Strongest Motor...

Is the only two chamber vacuum forming machine in its class that produce the greatest amount of vacuum strength, resulting in appliances, mouthguards, baseplates, trays and stents that have precise adaptation and perfect accuracy.

Superior Quality...

- Is completely manufactured in the USA from only the finest alloys and materials. Each component is individually inspected and must satisfy strict quality control guidelines.

- 5 year warranty
- UL, cUL, CE rated
- Heavy duty silicone gaskets
- Simple to operate controls
- Illuminated heat indicator
- Self-adjusting frame hinge
- Rugged custom painted finish
- Oversized housing for stability
- Toll free technical support
- Available in 220v and 110v

EMBRACE™ WetBond™

Pit & Fissure Sealant

*Light Cure • Fluoride
Releasing • Radiopaque*

- Contains No Bisphenol A and No Bis-GMA
- Wet-Bonding - Moisture tolerant resin chemistry
- Tooth Integrating - Seals against microleakage
- Margin-free - No chipping, pitting, or staining.

Crown & Bridge Pref. waxes

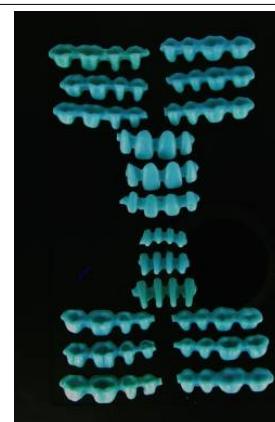

ECCO -100760 Wax Proformas S-M-L 180pk

US\$ 54.00

A set of pontics for modelling anterior and posterior bridges for veneer technique with acrylic or porcelain.

- Tooth shapes are proportionally reduced.
- Standard sizes are compatible for the majority of applications time savings!
- ECCO pontics can also be individually reduced or waxed-up.
- 6 standard wax blocks for bridge construction in each quadrant.
- Anatomical shaping of tooth nucleus.
- The lingual positioning of the anchor points allows vestibular separation.
- Optimum depth of occlusal surfaces allowing anatomical modelling.
- No delay during lifting due to high stability.

Wire Waxes

WIRE WAX

An optimal wax mixture makes the ECCO and Keystone wax wire tension-free, thus limiting elastic recovery.

- Suitable for various fittings due to the different diameters and wax strengths.

- Easily shaped but dimensionally stable.

- No tangling or fissure buildup when shaping individually.

ECCO - 557794 Light Cured Wax Kit

US\$ 35.00

Light Cured Wax Kit Contais 2 x 4.5gr Syringes & Separator liquid 5gr - [J# - 557794]

- Light cured wax is a unique resin for fabricating patterns for inlay/onlays and endodontic posts and cores - the material can be handled similarly to inlay wax and then light cured to produce a pattern which can not be deformed
- Lc wax will can be burnt out without any residue -

Welders

ECCO- 102119 Electric Ortho welding unit

US\$ 508.00

ELECTRIC ORTHO WELDING UNIT

- 110/220v
- 300Watts
- LED Display
- 3 Welding Settings
- 3 Spot Welding Settings
- Button for Continuous Soldering
- Welds Bands
- Bucal and Lingual Tubes and Attachements
- Firm Clamp
- Thickness Range Between 3mm-1.8mm Wire

X-ray Digital
Film Scanners

ECCO - 101750 Smart Dental System MTPC

US\$ 780.00

ECCO SCANNER PARA RX apicales

Con acceso EXTRA software con habilidades para implantologia ,cirugia y multiples estaciones en clinicas grandes

Caracteristicas principales:

- Modelo para computadoras
- Conexi USB Windows Vista compatible -
- Conexi puerto USB 2.0, funciona 110V o 220V.
- Tama peque: 8 cm, x 7cm x 8cm, peso 400g.
- Pued ser operado por una asistente
- Software de manejo de imenes incluido Fil de Operar No requiere uso especializado, simplemente contelo al puerto USB de su PC o Notebook, pulse el bot y terminada la tarea.

- Paso 1. Conecte el Digitalizador de Radiograf v el puerto de USB.
- Paso 2. Ponga la pelula de la Radiograf en la bandeja de carga defrente de la unidad.
- Paso 3. Abra el software (incluido en el CD), la imagen aparece al instante.
- Paso 4. Ajuste el brillo ajustando el bot de la unidad, pulse el bot "captura" en el software o simplemente empuje el bot en el tablero del frente de la unidad y captura la imagen.
- Paso 5. Archive como usted desee .jpg o .bmp

SOREDEX - 102302 Digora Optime Intraoral System

US\$ 12,500.00

DIGORA OPTIME INTRAORAL IMAGING SYSTEM

It is designed to make work in the dental office easier and more efficient. It is small, easy to use and fast to operate.

EFFICIENT WORKFLOW:

- *Imaging plates are as easy to position in the patients mouth as film
- *The readout process is completely automatic
- *The readout time is very short
- *No additional adapters nor equipment are needed
- *Compact Design
- *Smart Design
- *Quick Readout Time
- *Full Daylight Use
