PIN DRILL - RENFERT

PIN DRILL - RENFERT

Function & Performance

The pin step drill is suitable for use with all pins with a pin head ? of 2 mm, in particular for our Bi/ Bi-V pins. The Smart-Pin drill is suitable for use with all pins with a pin head ? of 1.6 mm, especially for our Smart-Pin/ Profix. Both drills are suitable for all pin drilling units with a 3 mm shank chuck.

Advantages

- * Very high service life.
- * Special blade geometry ensures very low drill resistance.
- * Pin drill with maximum rotational symmetry.

CARBIDE BURS - FOREDOM
CARBIDE BURS - FOREDOM

Designed for fast trimming of acrylics, and bulk trimming of dies.

Typhoons have unique structurally aligned points that leave a smoother finish than other types of tungsten carbide burs. Ideal for rapid and aggressive shaping and roughing out work on hard and soft wood, acrylic, die stone, plaster, hard rubber and fiber
