ACCUCAST CASTING MACHINES - BUFFALO

ACCUCAST CASTING MACHINES - BUFFALO

The rugged, improved, patented centrifugal casting machine with pre-calibrated balancing that helps ensure superior, dense castings every time. The rugged construction promotes safe operation and a long working life, and the positive locking crucible carrier secures type-A-crucibles and prevents accidental shifting or releasing.

Specifications:

- * Pre-calibrated, one-step balancing system saves time and eliminates guesswork.
- * Versatile Carrier adapter allows use with Kerr-type or Wesgo-type crucibles.
- * Drop-in spring design ensures powerful operation, keeps spring secure, and allows for easy replacement.
- * Snap-in cradles fitted to each ring flask assure correct alignment with crucible sprue holes.
- * Convenient size fits most lab benches. (19 5/16 arm length, 7 X 6 1/2 base housing, 12 1/2 overall height.

Complete Option is shipped with: 1 Type A Crucible, 4 steel ring flasks (#'s 12,17,25,35), 4 cradles (#'s 12A,17A, 25A,35A), 4 Rubber Sprue Bases (#'s 12R,17R,25R35R), 2 Flask Tongs (1 small and 1 large) and 1 Crucible Carrier Adapter.
