Glass Beads ROLLOBLAST | RENFERT
RENFERT - Rolloblast 50 m (400 - 200 mesh)

Renfert abrasives are supplied in acrylic canisters or buckets to preserve their high quality. The hermetic seals on these containers prevent any humidity entering. The 5 kg canisters are easy to handle. The abrasive can be comfortably poured into the module.

Rolloblast

Non-abrasive glass beads for smoothing and condensing of surfaces.

Advantages

Guarantees silky matt surface with no light reflection

For the finest surface treatment of precious and non-precious metal alloys.

Does not cause silicosis.

Function & Performance

Surface condensing and silky matte high-lustre finish on occlusal surfaces, in secondary components or crown interiors.

Denture cleaning (plaster/tooth tartar).

Devesting (pressed porcelain/inlays).

US DENTAL DEPOT is an Authorized Renfert Dealer in US.
