BENCH POLISHING UNTIS

575 BENCH TOP POLISHING SYSTEM - HANDLER

575 BENCH TOP POLISHING SYSTEM - HANDLER

The 575 is a Multifunctional Bench top system which is available with or without a Lathe.

The 575 Bench Top is a Complete bench top polishing system that comes with a heavy gauge, stainless steel, powder coated cabinet with two suction motors & cartridge filters.

The 575 Bench top come complete with two fluorescent lights, two dust collection trays, two insert pans and a 26A Red Wing Polishing lathe.

Features for Both Models:

- * Each suction motor delivers a powerful 225CFM,
- * Collects 0.5 microns of dust,
- * Easy access to reusable, replaceable pleated rear cartridge filter.
- * Replaceable, adjustable clear acrylic shield protects user from debris.
- * Can be set at different heights to accommodate user sitting down or standing up.
- * Baked on durable powder coating, arm rests for comfortable, sustainable operation.

Designed & Built by Handler in the U.S.A. Affordably priced significantly lower than other competitive units. Easy operation for dry grinding, or polishing with pumice using the pumice pans. Powerful suction system protects user with safer, healthier environment. (Helps to meet OSHA standards).

Both Models are available in 115V/60Hz - 230V/50Hz and 230V/60Hz at additional cost.

POLISHING UNITS - HANDLER

POLISHING UNITS - HANDLER

The Polishing Unit, the NEW standard of the laboratory industry, is designed with two drum cartridge filters for maximum performance to help keep your air clean and remove dusts from the environment. The filters are mounted onto a platform that can be easily removed for cleaning operations.

The Polishing Unit is sold complete with a two speed 26 Red Wing high base lathe. The product can be used with most dust collection applications in the lab, including plaster, stone, pumice and tripoli rouge.

Lights for Lab Benches

UBERBRIGHT LED TASK LIGHT - RELIABLE

UBERBRIGHT LED TASK LIGHT - RELIABLE

Features:

With this product is too easy to reach light settings. You can choose the brightness that is best for the task at hand. This light have 2-5W (200-500 lumens), with On/off switch on the base.

Our new 9000C light fixture uses 28 SMD-LEDs (surface mount and light emitting diodes) and advanced circuitry to produce a natural bright light that is easy on the eyes and reproduces colors as they truly are.

Available: in 9000 C- 8000C - 8000S
