Polishing and Finishing

Composite Polishing

COMPOMASTER HP - SHOFU

CompoMaster Coarse . CompoMasterDiamond impregnated polishers designed with a unique blend and high density of natural diamond particles to provide an exceptionally smooth surface on any composite material.

Features

- Developed for fine finishing to super-polishing of direct resin restorations, this diamond impregnated silicone polisher is available in two grits:
 - CompoMaster Coarse (yellow polisher) - For finishing & basic polishing
 - CompoMaster (yellow & white bands) - For superpolishing
- Provides a simple, fast and efficient polishing and super polishing for intra oral, chair side or laboratory use. Durable and cost effective two-step polishing system, available in HP and CA shank.

Recommended Speed Range:

Mounted Polisher: 5,000 - 15,000 rpm / max. 20,000 rpm. Contact Pressure: 0.5 N

Unmounted Wheel: 5,000 - 10,000 rpm / max. 15,000 rpm. Contact Pressure: 0.5 N

Packaging

- Individual shapes are packed in a box of 3's
- Assorted shapes are packed in a box of 4's as follows:
 - CompoMaster Coarse Assorted CA [REF 115C]

1x Bullet, Knife, Cup, Mini-Point
 CompoMaster Coarse Assorted HP [REF 120C]
 1x Bullet, Mini-Point, KN7, WH6
 CompoMaster Assorted CA [REF 0115]
 1x Bullet, Knife, Cup, Mini-Point
 CompoMaster Assorted HP [REF 0120]
 1x Bullet, Mini-Point, KN7, WH6

Unmounted wheels come with 1 Mandrel

Polishing and Finishing

Polishing and Finishing Discs

HABRAS DISCS - KEYSTONE

HABRAS DISCS - KEYSTONE

Features

Habras Discs offer a unique, three-dimensional abrasive/flexible bristle design that provides a uniform finish. These discs are ideal for heavy cleaning (coarse), removing light oxide (mium), pre-polishing, semi-finishing, blending, texturizing and polishing (fine).

Habras Discs provide the convenience of a pre-charged abrasive but do not generate the heat associated with rubber wheels. Embedded cubitron mineral abrasive is much harder than most metal. Removes oxides and polish without using compounds. Ideal for cleaning metal work and hard-to-reach areas. Ideal speed: 10,000 rpm. Discs are 19mm dia. and mounting 4 discs together is recommended for best performance.
