## Buttane Torches

### BIG BUDDY TURBO TORCH - BLAZER

#### BIG BUDDY TURBO TORCH - BLAZER

Butane Refillable TURBO Torch

The Big Buddy is the newest addition to the growing line of dual use torches specifically engineered for both Professional and home use.

The Big Buddy features a very powerful 2500? turbo flame and up to 60 minutes of continuous burn time, all in a light weight portable design.

The Big Buddy provides all the power and dependability, light after light, that Blazer is known for the world over.

### BRAND BUTANE - BLAZER

#### BRAND BUTANE - BLAZER

Near Zero Impurities

Help ensure a long life for all your Blazer products. Our premium grade butane gas is specially designed for use with all Blazer products (as well as other product brands). The Butane won't clog your tool with dirt and grime like other brands may.

Each long lasting canister of RF-300 Butane gas contains 150 grams of premium grade butane gas.

#### Why you should use Blazer Butane RF-300:

The small parts and orifices on the Blazer tools can become clogged with the dirt and grime found in many other brands of butane gas. Over time this can impair the usual longevity of your Blazer tool.

Blazer products are precision engineered with the highest quality parts and materials and should be treated as well as any other well-crafted tool. Using Blazer Butane to insure a long productive life is an important part of this process.

#### Warning:

Never fill a Torch or Lighter over a sink or similar deep well. Butane Gas is heavier than air and may collect in low spaces and ignite if sparked.

## ES 1000 - ANGLED HEAD MICRO TORCH - BLAZER

### ES 1000 - ANGLED HEAD MICRO TORCH - BLAZER

Featuring a unique angled head design the ES-1000 is a slim yet powerful Micro Torch. Flame adjustment allows precise control of flame length, burning from a powerful blue torch to standard yellow flame. This completely portable, self-contained unit will meet all your soldering brazing and other professional needs. There are available in a choice of Black or red.

#### Air Flow Control Switch:

Top mounted switch allows for a quick flame change, from 2500F butane blue to a standard yellow flame. Slim design allows it to fit almost anywhere.

#### Ideal for:

Dental and Medical Lab work, Jewelry/lapidary work, electronic repair and other professional repair jobs.

## FIREFOX TORCHES - BLAZER

### FIREFOX TORCHES - BLAZER

Butane Refillable Mini Torch

The FireFox is the newest torch in our popular line of dual use micro torches and reflects the same unparalleled quality, craftsmanship and proven track record built serving the professional hand tool industry for over 28 years.

The FireFox measures a compact 4.5" tall and packs all the punch Blazer torches are known for. Featuring a large gas chamber which provides a 20 minute burn time, a powerful 2500F wind resistant adjustable flame and the same intuitive child resistant mechanism found on all of our dual use torches, such as the PB207.

This unique torch makes the perfect table top lighter as well as an interesting conversation piece. Most importantly the Made in Japan FireFox will give you all the dependability and reliability, light after light, which all our products are known for.
