COMPOSITE POLISHERS RA | SHOFU

CompoMaster Coarse CompoMaster Diamond impregnated polishers designed with a unique blend and high density of natural diamond particles to provide an exceptionally smooth surface on any composite material.

Features

- Developed for fine finishing to super-polishing of direct resin restorations, this diamond impregnated silicone polisher is available in two grits:
 - CompoMaster Coarse (yellow polisher) For finishing & basic polishing
 - CompoMaster (yellow & white bands) For superpolishing
- Provides a simple, fast and efficient polishing and super polishing for intra oral, chair side or laboratory use. Durable and cost effective two-step polishing system, available in HP and CA shank.

Recommended Speed Range:

Mounted Polisher: 5,000 15,000 rpm / max. 20,000 rpm. Contact Pressure: 0.5 N

Unmounted Wheel: 5,000 10,000 rpm / max. 15,000 rpm. Contact Pressure: 0.5 N

Packaging

- Individual shapes are packed in a box of 3s

Assorted shapes are packed in a box of 4s as follows:

- CompoMaster Coarse Assorted CA [REF 115C]
 - 1x Bullet, Knife, Cup, Mini-Point
 - CompoMaster Coarse Assorted HP [REF 120C]
 - 1x Bullet, Mini-Point, KN7, WH6
 - CompoMaster Assorted CA [REF 0115]
 - 1x Bullet, Knife, Cup, Mini-Point
 - CompoMaster Assorted HP [REF 0120]
 - 1x Bullet, Mini-Point, KN7, WH6

*Unmounted wheels come with 1 Mandrel

COMPOMASTER CA & FG

CompoMaster Coarse CompoMaster Diamond impregnated polishers designed with a unique blend and high density of natural diamond particles to provide an exceptionally smooth surface on any composite material.

Features

- Developed for fine finishing to super-polishing of direct resin restorations, this diamond impregnated silicone polisher is available in two grits:
 - CompoMaster Coarse (yellow polisher) For finishing & basic polishing
 - CompoMaster (yellow & white bands) For superpolishing
- Provides a simple, fast and efficient polishing and super polishing for intra oral, chair side or laboratory use. Durable and cost effective two-step polishing system, available in HP and CA shank.

Recommended Speed Range:

Mounted Polisher: 5,000 15,000 rpm / max. 20,000 rpm. Contact Pressure: 0.5 N

Unmounted Wheel: 5,000 10,000 rpm / max. 15,000 rpm. Contact Pressure: 0.5 N

Packaging

- Individual shapes are packed in a box of 3s

Assorted shapes are packed in a box of 4s as follows:

- CompoMaster Coarse Assorted CA [REF 115C]
 - 1x Bullet, Knife, Cup, Mini-Point
 - CompoMaster Coarse Assorted HP [REF 120C]

ONEGLOSS POLISHERS

ONE-GLOSS POLISHERS - SHOFU

The OneGloss polishers had been developed for finishing and polishing of composite restorations, enamel surfaces and removal of excess cements. OneGloss polishers allow finishing and polishing with only one instrument, since the user determines the surface quality and the grade of polishing by altering the contact pressure.

Indication:

In the dental practice

- * Finishing and polishing of composite restorations.
- * Removal of excess resin or cements on tooth surface without marring the enamel.
- * Removal of cement and polishing of enamel after orthodontic bracket removal and debanding.
- * Polishing enamel after tooth scaling.
- * Removal of stains from tooth surface.

Notes:

- * Insert onegloss Mandrel (with white band) completely into onegloss polisher.
- * Use intermittent water spray when applying heavy pressure or polishing enamel.
- * Onegloss and Onegloss PS polishers are disposable.

Benefits:

- * Silicon polisher with aluminium oxide.

- * Abrasive grains and binder exactly coordinated.
- * Precision running.
- * Exactly centred.
- * Optimal contact-pressure-to-revolution ratio.
- * Customizable.
- * Finishing and polishing with only one instrument.
- * No need to change instruments.
- * No additional polishing paste needed.
- * Long tool life.
- * Vibration-free action.
- * Low heat generation.

Material properties:

- * Working end
- * Silicone With Integrated Aluminium Oxide Abrasive

US DENTAL DEPOT Inc is an Authorized SHOFU Dealer in the US.

SUPER SNAP

SUPER-SNAP POLISHING SYSTEM - High gloss polishing of composite restorations

The unmounted Super-Snap disks and Super-Snap minidisks polish microfilled and hybrid composites easily, quickly and reliably.

The elastic shank mount means easy placing of the disk onto the mandrel.

The disks are manufactured without a metal center, thus avoiding gouging and discoloration of the composite.

The ultra-thin disks are very flexible, bending under pressure without breaking and allowing easier access to interproximal areas. The system saves time without loss of quality.

The Super-Snap polishing system also includes the coordinated Super-Snap Polystrips.

The strips match the color code and the grit size of the Super-Snap disks. They offer the same outstanding results as the Super-Snap disks for interproximal areas.

Indication

- * Contouring, finishing, polishing and superpolishing (to a high gloss) of composite restorations
- * Contouring: Super-Snap disk black (coarse)
- * Finishing: Super-Snap disk violet (medium)
- * Polishing: Super-Snap disk green (fine)
- * High gloss: Super-Snap disk red (superfine)

For interproximal finishing and polishing use Super-Snap Polystrips.

Benefits

- * Extremely thin and highly flexible
- * No metal center
- * Matching polishing strips for interdental areas
- * Contouring to high gloss polishing in four steps
- * No damages to enamel/dentin or restoration

Material properties

Working end

- * Super-Snap disks black/violet: PET with silicon carbide coating
- * Super-Snap disks green/red: PET with an aluminium oxide coating

Shapes and sizes available

Super-Snap disks

- * Black (coarse) - standard - top side coating
- * Black (coarse) - mini - top side coating
- * Violet (medium) - standard - top side coating
- * Violet (medium) - standard - double-sided coating

- * Violet (medium) - mini - under side coating
- * Violet (medium) - mini - double-sided coating
- * Green (fine) - standard - double-sided coating
- * Green (fine) - mini - double-sided coating
- * Red (superfine) - standard - double-sided coating
- * Red (superfine) - mini - double-sided coating

Super-Snap polystrips

- * Black/violet - coarse/medium - single-sided coating
- * Green/red - fine/superfine - single-sided coating

Shank

- * Stainless steel
- * Plastics

Shank shapes available

- * CA = contra angle
- * FG = turbine

Recommended speed range

10,000 - 12,000 rpm

DIA-FINISH POLISHING DISCS - RENFERT

Two In One: Polishing Instrument + Polishing Paste.
High-quality felt discs impregnated with fine diamond particles for polishing porcelain and facing acrylics.

Features

- * Optimum combination of polishing felt and diamond paste.
- * Quick and comfortable polishing.
- * Long-lasting and ready to use.
- * Polish without firing after occlusal grinding (TIMESAIVING!).
- * One mandrel contained in every pack.

Wheel shape:

- * For polishing large areas.

Knife-edge shape:

- * For occlusal and interdental polishing.

- * Harder version to maintain
- * The knife-edge shape.

US DENTAL DEPOT is an Authorized RENFERT Dealer in US.

Ceramiste

CERAMISTE POLISHERS - SHOFU

Aluminum Oxide Impregnated Silicons provides polishers & finishers that produce the smoothest finish and most glaze-like surfaces.

One more step than Ceramaster (which are Diamond Impregnated) .

Specifications:

- * Available in 3 different grits
- * Standard polishers (no band) are for pre-polishing
- * Ultra (yellow band) for polishing and
- * Ultra II (white band) for super-polishing

Excellent for setting, retouching or adjusting, Porcelain, Zirconia, Full contour zirconia restorations, inlay-onlay, Full ceramics like e.Max, or Enamel either Chairside or intraoral.

ALLOY POLISHERS RA & FG SHOFU

BROWNIE- GREENIE - SUPER GREENIE POLISHERS - SHOFU

Use Brownies to achieve a smooth surface, Greenies for a lustrous polish and Supergreenies for a super-polish.

Advantage:

- * Silicon polishers impregnated with high quality abrasives
- * Use Brownies for pre-polishing, Greenies for polishing and Supergreenies for super-polishing
- * Use Brownie/Greenie/Supergreenie Stones for: amalgams, precious alloys and non-precious alloys

US DENTAL DEPOT Inc is an Authorized SHOFU Dealer in the US.
