POLYCARBONATE TEMPORARY CROWNS - DIRECTA

Directa Polycarbonate Temporary Crowns are for use in temporary restorations to protect and provide acceptable aesthetics.

- * Hallmark for simplicity, efficiency and esthetics
- * Highly acclaimed for their natural appearance and morphology

The requirement for temporary restoration to protect and provide acceptable aesthetics is amply satisfied by the well thought out range of Directa Temporary Crowns. For more than 35 years Directa has been the most often preferred range of temporary crowns, and our comprehensive coding system, adopted as the norm by many manufacturers, offers 70 molds and sizes to accommodate almost every possibility. Directa Temporary Polycarbonated Crowns have become a Hallmark for simplicity, efficiency and aesthetics, and are highly acclaimed for their natural appearance and morphology. The strength of the design extends also to the Mold Guides that allow for the individual removal of every mold and size, thereby aiding the selection of the most appropriate crown every time.
