DENTURE ADHESIVES

FIXODENT DENTURE ADHESIVE - P&G

FIXODENT DENTURE ADHESIVE - P&G

Features:

Fixodent(R) Complete Original denture adhesive's unique seal delivers denture care that's comfortable, and delivers a strong, long-lasting hold. Original dental cream is formulated to help prevent gum soreness* and provide an improved denture fit*, allowing you to smile confidently, all day long! From denture adhesives to denture cleansers, Fixodent gives you denture care confidence. If you're one of the 33 million people of all ages and walks of life who have dentures, Fixodent can help you to face each day with confidence. The power of the #1 dentist recommended denture adhesive brand (data on file) helps prevent slipping and helps to keep food from getting in-between dentures and gums. It's great for both full plate and partial dentures.

- * Powerful seal helps to prevent food from getting between dentures and gums.
- * Helps to prevent gum soreness for a more comfortable denture fit.
- * #1 Dentist Recommended Denture Adhesive Brand.
- * Great for full and partial plate denture wearers.

SMILE BRITE DENTURE CLEANER - ADS

SMILE BRITE DENTURE CLEANER - ADS

Safe and effective professional strength. Cleaning agent for all types of denture resins. Restores worn appliances to "like-new" appearance. Use on full dentures, soft liners, light-cured resins, partial dentures and orthodontic appliances. Easy to use. Especially powerful for removal of scalem tartar and stains. Cleans and deodorizes dental appliances and helps prevent irritation to gum tissue. Will not corrode stainless steel.

DURASHIELD FLUORIDE VARNISH - SULTAN

DURASHIELD FLUORIDE VARNISH - SULTAN

Features:

DuraShield fluoride varnish has several advantages over traditional fluoride treatments with speed, ease of use and range of application. With DuraShield there is no need for a prophy before application. It sets on contact with saliva and releases fluoride for 6-8 hours. There is very little ingestion of fluoride, unlike traditional tray applications. DuraShield fluoride varnish can be safely applied to small children (infants/toddlers) disabled patients and patients with active gag reflex with minimal effort. Its light amber color lets you know the tooth surface is completely covered without compromise of esthetics (refer to image below) and will be removed during regular tooth brushing the following morning.

- * Each unit dose .40ml pack allows you to mix varnish prior to application guaranteeing a consistent level of fluoride in every application
- * Relieves hypersensitivity on high risk caries patients with root caries or xerostomia and where dentin or cementum is exposed
- * Sets on contact with saliva, remains on tooth for six to eight hours for optimum fluoride uptake
- * Single-use, hygienically sealed package, aids in asepsis and eliminates cross contamination making preparation and clean-up fast and simple
- * Bubble Fun? flavor and minimal food/drink restrictions after application, increases patient acceptance
- * Light amber-yellow color, enhances visual control

PROXABRUSH CLEANER - SUNSTAR

PROXABRUSH CLEANER - SUNSTAR

GUM Proxabrush Go-Betweens cleaners have been clinically designed by dental professionals to remove dental plaque from areas between the teeth most commonly missed by toothbrushing alone. As a popular and effective alternative to dental floss, GUM? Proxabrush? Go-Betweens? are safe and easy to use for cleaning between natural teeth and around crowns, bridges, dental implants and orthodontic appliances.

Available: 12 Pk - 36 Pk - 200Pk
