

Curing Units

Curing Unit Parts

AQUAPRES HYDRAULIC CURING UNIT - PARTS - LANG

AQUAPRES HYDRAULIC CURING UNIT - PARTS - LANG

Features:

- * Hydraulic, not pneumatic
- * 3 Easy-Steps to generate pressure
- * Compact design

Benefits:

- * Provides a safer work environment over air pressure without the need for an air compressor, heat or electricity
- * Creates a dense acrylic for color stable results and increases efficiency
- * Requires no extra attachments, space saving

Improve the quality of the fabrication process. When combining Jet? Acrylics and Lang Dental?s Aquapres?, you can decrease undesirable results, which can be time consuming and costly. The complete fabrication system consistently generates dependable, high-quality results by eliminating porosity in methacrylate acrylics and achieving long-lasting color.
